

Internal Medicine - Dermatology

Available any time during the electives period. The length of this elective is variable with a minimum of two (2) weeks up to four (4) weeks in duration. The student will be exposed to clinical Dermatology in an out-patient setting. The students will become familiar with conventional therapy and will be responsible for seeing patient consultations with the assigned preceptor.

By the end of the elective period the student shall:

- Be exposed to a wide range of clinical scenarios within the field of Dermatology

This elective will also provide the applicant with the capacity to:

- Gain a sound understanding of Dermatology
- To develop skills in obtaining a relevant patient history
- To develop skills in the patient physical exam
- To effectively communicate verbally and in writing in areas relevant to clinical Dermatology

Availability: All year
