

Elective: Pediatrics; Child Development

Location(s):

Health Science Centre (HSC)
Children's Hospital – Manitoba FASD Centre/Rehabilitation Centre for Children

Contact Person:

Dr. Ana Hanlon-Dearman – ahdearman@hsc.mb.ca Phone: 787-2463
Administrative Assistant: Shirley Dion - dion@hsc.mb.ca Phone: 787-4378

LEARNING OBJECTIVES (CanMEDS)

- Learn normal developmental milestones
- Recognize variations of normal development
- Appreciate ranges of normal behaviour at various ages
- Recognize signs of developmental disorders
- Observe and learn techniques for interview and counselling of parents who have children with developmental challenges

Medical Expert

As Medical Experts, physicians integrate all of the CanMEDS Roles, applying medical knowledge, clinical skills and professional attitudes in their provision of patient-centered care.

The student can expect to be actively involved in the service. This will encompass:

Communicator

Physicians effectively facilitate the doctor-patient relationship and the dynamic exchanges that occur before, during, and after the medical encounter.

As Communicators, students will facilitate the doctor-patient relationship:

Collaborator

Physicians effectively work within a healthcare team to achieve optimal patient care.

As Collaborators, students will work effectively within the surgical team to achieve optimal patient care:

Leader

Physicians engage with others to contribute to a vision of a high-quality health care system and take responsibility for the delivery of excellent patient care through their activities as clinicians, administrators, scholars, or teachers.

As Leaders, students will participate in the activities of the surgical service, making decisions, allocating resources, and contributing to the effectiveness of the health care team:

Health Advocate

Physicians responsibly use their expertise and influence to advance the health and well-being of individual patients, communities and populations.

Elective: Pediatrics; Child Development

As Health Advocates, students will responsibly use their expertise and influence to advance the health and well-being of individual patients, communities and populations:

Scholar

Physicians demonstrate a lifelong commitment to reflective learning, as well as the creation, dissemination, application and translation of medical knowledge.

As Scholars, students will demonstrate a lifelong commitment to learning:

Professional

As Professionals, physicians are committed to the health and well-being of individuals and society through ethical practice, profession-led regulation, and high personal standards of behaviour.

As Professionals, students are committed to health and well-being of individuals through ethical practice, profession-led regulation and high personal standards of behavior
