

# Psychiatry - General Psychiatry

Customized inpatient and/or Outpatient Experience

## 1. Inpatient Component:

- 20 – 23 inpatient beds
- Three staff Psychiatrists

## 2. Outpatient Component:

- 4 outpatient follow-up clinics per week
- 4 clinics per week where residents are assessing new patients in the presence of the staff psychiatrist and other trainees. Students would have the option of doing some of these assessments.
- 3 staff psychiatrists, 2 residents, 3 nurse therapists, 1 social worker, 1 occupational therapist.

## 3. Weekly program rounds.

## 4. Weekly cross program rounds.

### **Learning Objectives:**

The student will improve their skills in:

1. How to take a psychiatric history.
2. How to develop a management plan.
3. Interviewing skills.
4. How to interact with members of a multidisciplinary team.

### **Call Responsibility:**

Discuss with the Department of Psychiatry Program Administrator.
