a) Degree, Department, University: _____

b) Degree, Department, University: _____

List of Publications and Presentations:

Thesis/Dissertation Title (if available):

Please describe your graduate research topic.

(250 word maximum).

AcademyHealth defines Health Services Research as “the multidisciplinary field of scientific investigation that studies how social factors, financing systems, organizational structures and processes, health technologies, and personal behaviors affect access to health care, the quality and cost of health care, and ultimately our health and well-being. Its research domains are individuals, families, organizations, institutions, communities, and populations.”

Explain how your research aligns with this definition.

(250 word maximum).

What is the potential of your research to guide health care reform?

(250 word maximum):

What are your career aspirations in health services research? What have you done to date to prepare and how will this program advance your goals?

(250 word maximum):

What prompted your interest in the Manitoba Training Program and what do you expect or hope to gain from the program?

(500 word maximum):

A large, empty rectangular box with a thin black border, occupying the right two-thirds of the page. It is intended for the user to write their response to the question above.

Please list other agencies to which you have applied for financial support and any current awards/scholarships **(include agency, dollar amount, and year(s))**:

Reference Contacts

Please note that the Program will send a confidential Reference Form to each Reference listed and will add the finished Reference form to your application. The Program will notify you once these have been added.
