Profession: Licensed Professional Engineer / EGM, PEO, APENS (relinquished)
 Professor of Civil Engineering (Water Resources Engineering)

Key Qualifications

- 3 years as Associate Vice-President (Partnerships), University of Manitoba
- 4 years as Vice-Provost (Graduate Education), University of Manitoba
- 11 years as Dean (Faculty of Graduate Studies), University of Manitoba
- 4 years as Head of Civil Engineering, University of Manitoba
- 4 years as Assoc. Head of Civil Engineering, University of Manitoba
- 26 years of experience as a university faculty member responsible for undergraduate and graduate teaching, research, and graduate student supervision in the area of Water Resources Engineering.
- 31 years of experience as a practicing professional engineer in the area of Water Resources Engineering; expertise includes (but is not limited to):
 - coastal, river, and ice engineering
 - hydraulic and hydrologic engineering
 - stormwater and urban runoff modeling
- 29 years experience with physical model studies and modern hydraulics laboratory equipment
- author of refereed journal papers, conference papers, and technical reports; editor of conference proceedings (IAHR, CRIPE)

Education

- | | |
|------|---|
| 1988 | Ph.D. in Physical Oceanography (Coastal Hydraulics)
Dalhousie University, Halifax, Nova Scotia |
| 1984 | B.Sc. (first class honors) / Civil Engineering
Queen's University, Kingston, Ontario |

Awards and Distinctions

- | | |
|------|--|
| 2019 | Outstanding Leader in Engineering Excellence
Alumni Award, Faculty of Applied Science, Queen's University, Kingston |
| 2018 | Dean Emeritus, University of Manitoba |
| 2017 | Elected a Fellow of The Canadian Academy of Engineering (FCAE) |
| 2016 | Engineers & Geoscientists Manitoba, Technical Excellence Award |

2012	Queen Elizabeth II Diamond Jubilee Medal for Public Service
2011	University of Manitoba Outreach Award
2010	Elected a Fellow of Engineers Canada (FEC)
2005	University of Manitoba Faculty Association Merit Award for Teaching Excellence
2005	Elected a Fellow of the Canadian Society for Civil Engineering (CSCE)
2004	Canadian Society for Civil Engineering (CSCE) Thomas C. Keefer Medal (Honourable Mention)
1999	University of Manitoba, Faculty of Engineering Superior Performance Award
1999	University of Manitoba, University Teaching Services Certificate of Teaching Excellence
1999	Association of Professional Engineers & Geoscientists of Manitoba (APEGM) Early Achievement Award
1999	University of Manitoba NSERC Steacie Fellow Nominee (1 of 2)
1998	Rh Institute Award (Applied Sciences) Outstanding Contributions to Scholarship and Research
1997	University of Manitoba, University Teaching Services Certificate of Teaching Excellence
1993	McMaster University Student Union Teaching Award
1988 – 1990	NSERC Visiting Fellowship (Canadian Government Laboratory) Hydraulics Laboratory, National Water Research Institute, Burlington
1984 – 1988	1967 (Centennial) Natural Sciences and Engineering Research Council of Canada Postgraduate scholarship
1981 – 1984	Dean's Scholar, Queen's University at Kingston

Work Experience

2016 –	Associate Vice-President (Partnerships) & Professor
2012 – 2016	Vice-Provost (Graduate Education), Dean (Graduate Studies), & Professor
2005 – 2012	Dean, Faculty of Graduate Studies, & Professor
2003 – 2005	Head and Professor
2001 – 2003	Head and Associate Professor
1997 – 2001	Associate Head and Associate Professor
1997	Tenured
1996	Associate Professor
1993 – 1996	Assistant Professor (tenure-track), Civil and Geol. Eng., University of Manitoba

1991 – 1993 Assistant Professor (contractually limited), Civil Eng., McMaster University
 1990 – 2006 President, Doering Engineering Inc.
 1988 – 1990 NSERC Visiting Fellow, Hydraulics Laboratory, Canada Centre for Inland Waters

Professional and Community Service

2018 - Commissioner, Manitoba Clean Environment Commission
 2017 Civil Program Visitor for Engineers Canada, Canadian Engineering Accreditation Board
 2016 - 2018 Councilor (elected), Engineers Geoscientists Manitoba
 2015 - 2018 Member of Cabinet, United Way of Winnipeg
 2014 - 2016 Board Member, U.S. Council of Graduate Schools (CGS), Washington DC
 2012 - 2014 Past-President, Canadian Association for Graduate Studies
 2011 - 2013 Chief Warden, Camp 8, Engineering Iron Ring Ceremony
 2010 - 2012 President, Canadian Association for Graduate Studies
 2010 - 2010 Vice-President and President Elect, Canadian Association for Graduate Studies
 2010 Civil Program Visitor for the Canadian Council of Professional Engineers, Canadian Engineering Accreditation Board (CEAB)
 2010 - 2012 President, Western Canadian Deans of Graduate Studies
 2008 - 2014 Board Member, Canadian Association for Graduate Studies
 2008 - 2010 Vice-President and President Elect, Western Canadian Deans of Graduate Studies
 2006 Civil Program Visitor for the Canadian Council of Professional Engineers, Canadian Engineering Accreditation Board (CEAB)
 2005 - 2016 Investigation Committee, Engineers Geoscientists Manitoba
 2004 Civil Program Visitor for the Canadian Council of Professional Engineers, Canadian Engineering Accreditation Board (CEAB)
 2004 - 2009 Chair, Awards Judging Committee, Consulting Engineering of Manitoba
 2003 - 2004 Vice-Chair, Awards Judging Committee, Consulting Engineering of Manitoba
 2003 - 2006 Canadian Highway Bridge Design Code: Section 1 – General Provisions Subcommittee / Hydraulics & Hydrology (member)
 2002 Civil Program Visitor for the Canadian Council of Professional Engineers, Canadian Engineering Accreditation Board (CEAB)
 2002 - 2004 Councilor (elected), Engineers Geoscientists Manitoba
 2002 - 2006 Member, Committee on River Ice Processes and the Environment (CGU-HS)
 2001 Requested to sit on GSC 06 (Civil Engineering) by Natural Sciences and Engineering Research Council (declined)
 2000 - 2004 V.P. Prairie Region and Director, Canadian Society for Civil Engineering (CSCE).
 2000 - 2002 Past President, Manitoba Branch, Canadian Water Resources Association (CWRA)
 1999 - 2003 Awards Committee, Engineers Geoscientists Manitoba
 1998 - Warden, Camp 8, Engineering Iron Ring Ceremony

1998 - 2000	President, Manitoba Branch, Canadian Water Resources Association
1997 - 2000	Director, Canadian Water Resources Association
1996 - 1998	Vice President, Manitoba Branch, Canadian Water Resources Association
1995 - 2003	Director, Canadian Coastal Science and Engineering Association (CCSea)

ADMINISTRATIVE EXPERIENCE

Overall

- excellent organizational, time management, communication, and interpersonal skills
- a demonstrated record of developing a credible rapport with (undergraduate and graduate) students, support staff, faculty, central administration, Provincial government, local industry, and national professional organizations
- working knowledge and experience with the University's hierarchy, Policies and Procedures, and collective agreements (especially ASES, UMFA and CUPE locals 1482 and 3909)

Responsibilities as Associate Vice-President (Partnerships):

- university's research-related contracts
- International Centre
- Technology Transfer Office
- Chair, Partners for Health and Development in Africa
- Advanced Research Computing
- SSHRC and NSERC Tri-Agency grants
- MITACS

Responsibilities as Vice-Provost (Graduate Education) & Dean (Faculty of Graduate Studies):

- provide leadership in graduate education, establish policies and best practices in graduate studies
- co-chair of the University's Strategic Enrolment Management (SEM) Planning committee
- 3 Associate Deans
- administration of 134 graduate programs (85 Master's / 49 Ph.D.), including program reviews
- administration of approximately 3750 graduate students
- oversight of approximately 1600 full- and part-time faculty members teaching and supervising graduate students
- 20 FT support staff in the Dean's Office
- 12.3M\$ budget

Responsibilities as Head of Civil Engineering:

- oversight of 21 faculty members / 15 support staff
- administration of a 2.6M\$ budget & 2.5M\$ in externally funded research support (excluding ISIS NCE funds)
- signing authority on all departmental accounts
- use and planning of departmental space

- mentoring of new faculty; tenure and promotion recommendations
- supervision of support staff (approval of step increases and time sheets); incl. disciplinary action
- assigning duties to departmental faculty and staff
- preparation of “Request for Replacement” for the Vice-President (Academic) & Provost
- responsible for setting directions in program curriculum development
- ex-officio of all department committees

Responsibilities as Associate Head of Civil Engineering:

- responsible for all undergraduate affairs, including:
 - approval of transfer credits
 - waiving of pre/co-requisites
 - approval of course conflicts
- acting head for periods of up to 1 month
- development of promotional material for the department
- assist Administrative Assistant with timetabling of courses
- chair Board of Examiners meetings
- responsible for cooperative education program
 - assist cooperative coordinator with long term goals and program planning
 - selection of students for the program

Administrative Courses

<u>Date</u>	<u>Course</u>
2008	▪ Development for Deans (Phoenix) Council for Advancement and Support of Education (CASE)
2006	▪ Senior University Administrators Course (Banff) Centre for Higher Education Research and Development (CHERD)
2004	▪ University Management Course (Banff) Centre for Higher Education Research and Development (CHERD)

SUMMARY OF TEACHING

Undergraduate Courses Taught

- fluid mechanics
- design of hydraulic structures
- numerical methods in engineering analysis
- river engineering
- design of water resources systems
- computer applications in civil engineering
- engineering hydrology

Graduate Courses Taught

- ice engineering
- coastal hydraulics
- river engineering
- stormwater hydraulics
- design of water resource systems
- statistical methods in hydrology

Undergraduate Theses Supervised

Research Assistants

<u>Name</u>	<u>Year</u>	<u>Description</u>
Kehler, N.	2006	NSERC USRA - performing skim ice experiments and numerical modeling of frazil ice processes
Chanel, P.	2005	NSERC USRA - development of digital image process techniques to classify frazil ice particles
Chanel, P.	2004	NSERC USRA - hydraulic model studies of the Red River Floodway inlet gates and outlet spillway - hydraulic model study of adverse current end sill energy dissipation
Malenchak, J.	2003	NSERC USRA - developed finite element models of Lake Manitoba, Dauphin Lake, and Lake Winnipeg to predict setup and wave height for the Province of Manitoba - conducted frazil and anchor ice experiments
Malenchak, J.	2002	NSERC USRA - conducted series of frazil and anchor ice experiments - developed finite element model of Lake Manitoba
Clark, S.	2001	NSERC USRA - developed software for frazil and anchor ice experiments - developed finite element model of Lake Winnipeg
Bekeris, L.	1999	NSERC USRA - conducted frazil and anchor ice experiments - analyzed data and prepared draft paper for publication
Dow, K.	1998	Co-op Student - calibrated instrumentation, performed ice experiments - setup digital image processing system
Lock, T.	1995	Research Engineer - setup and calibrated a continuous simulation model of the entire Seine River watershed
Hans, P. Franklin, K.	1994	Research Assistants - undertook a complete survey of the shoreline of the south basin of Lake Winnipeg in collaboration with Manitoba Hydro

Summary of University-Industry Research Partnerships

<u>Title</u>	<u>Year(s)</u>
• physical hydraulic model (2/3 scale) of inlet restrictors for stormwater catch basins; done in collaboration with Wardrop Engineering Inc. for the City of Winnipeg: Phase II	2005
• physical hydraulic modeling of the Red River Floodway outlet structure in collaboration with Acres Manitoba, KGS Group, and UMA	2004
• physical hydraulic modeling of the Red River Floodway inlet gates in collaboration with SNC Lavalin Inc. and Wardrop Engineering Inc	2004
• physical hydraulic modeling of partially buried culverts for the Province of Manitoba Transportation and Government Services	2004
• physical hydraulic modeling of inlet restrictors for stormwater catch basins; done in collaboration with Wardrop Engineering Inc. for the City of Winnipeg	2003
• physical modeling of the Limestone anchor ice problem at Sundance Rapids using the counter-rotating ice flume to investigate excavation strategies	1999
• collection and processing of wind, wave, and runup data in Grand Rapids Generating Station forebay for dam safety engineering (in collaboration with Acres International)	1998-99 1997-98
• physical hydraulic modeling to design a complementary intake for a hydroelectric plant in Peru (in collaboration with Acres International)	1997
• hydrologic and hydraulic modeling of the Seine River Watershed for the City of Winnipeg	1994
• designed a hydraulic dredge head to remove organic sediment from the City of Winnipeg's water supply reservoir (in collaboration with TetrES consultants)	1993
