| 3. Amendment request date:                                                                                                                                                             |                                                                                                                                            |
| 4. Reason for amendment:                                                                                                                                                               |                                                                                                                                            |
| 5. Start date (d/m/y) for commencing use of live animals, human participants or biosafety ( <b>if revised</b> ):                                                                       |                                                                                                                                            |
| Expected date (d/m/y) to receive Environmental Impact ( <b>if revised</b> ):                                                                                                           |                                                                                                                                            |
| <b>Note: Protocol(s) must be submitted to Research Ethics &amp; Compliance Office(s) for review and approval, approx. 3 months prior this research or your project may be delayed.</b> |                                                                                                                                            |
| 6. Outline the research activities (if revised) that will be done between the dates in #3 and #5 above for:                                                                            |                                                                                                                                            |
| Animal Care                                                                                                                                                                            |                                                                                                                                            |
| Human Ethics                                                                                                                                                                           |                                                                                                                                            |

Biosafety

Environmental Impact

7. Additional funding required prior to date in #5:            Total: \$

Provide details:

**Statement of Declaration:**

*By signing below, I guarantee that the partial funding release will not be used to fund the performance of research activities that require an animal use protocol, human ethics protocol, biosafety permit, environmental impact approval and that I will submit the appropriate certification/registration document(s) and receive approval prior to engaging in any such research activities. I acknowledge that early access to funds is a privilege and verify that the information contained in this form is accurate that inaccurate or false information is a breach of the University of Manitoba Responsible Conduct of Research Policy.*
