Initial Application

To create a new Human Ethics Protocol as a Designate:

1. Under the **Create New** menu item select **Human Ethics Protocol**

Note: The newly created protocol will receive a temporary protocol number while the application is in development. Once the application is submitted, a final Human Ethics Protocol number will be assigned.

2. Start filling out the following information to start your new protocol:

- a. **Create** – New or Copy from Existing

- i. To **copy from existing** protocol, click the **Lookup** link the Lookup Protocol to Copy window will appear

Create: New Copy from existing

Protocol to Copy: [Lookup](#)

- ii. Search and select the protocol you wish to copy

Note: You will only be able to copy protocols you have access to.

- b. **Protocol Title** – Enter the title of the protocol

Note: The title must be unique per PI, this means it cannot be duplicated from another protocol under the same PI

- c. **Principal Investigator** – Populated with name of the user who is logged in, this should be the PI

- i. When a Designate (i.e. Study Coordinator) is filling out the form for the PI you must replace the Principal Investigator name with the PI's name.

1. Click **Replace** to choose the correct PI for this protocol.

Principal Investigator: [Replace](#)

2. The **Find PI** search box will appear, type into the lookup field to find the PI's name.

Find PI

Lookup:

Name	ID	Department
Researcher_Jane	test	Psychology

Complete Initial Application

The initial application form employs a feature that displays relevant questions and tabs based upon the responses provided throughout the application form. This means you will only see questions that are required for you to answer as you are completing the form.

1. If the designate is filling out this form for a Student PI, check off **Yes** for the question 'Is the Principal Investigator for this project a student?'. This will ensure they need to also include the student's advisor in the Research Personnel tab. See the Student PI Submission process for more details on student PIs.
2. Select the role of the Designate under the **Role** drop down.
3. Navigate through each page and answer each question as they appear within the form.

Adding Research Personnel

Add additional research personnel to the protocol including the Designates information.

1. Navigate to the Research Personnel tab
2. Click **Add** under the Protocol Personnel table

Protocol Personnel

Name	Department	Role	CV	CORE	PHIA	Access	CC	Contact Details	Contact Level
RAS Researcher	Max Rady College of Medicine	Principal Investigator		08/21/2020 Import	08/21/2020 Import	Signature Authority	<input type="checkbox"/>	Contact Details	Primary

Add

3. The Find Person window will appear, search for the user's name in the Lookup field

Note: If the user you are trying to add does not appear in the list you can still add them to the protocol, see [Add On-The-Fly User](#) section.

Find Person

Lookup: [Go](#)

Name	ID	Department
Admin_Research	RAS_PI_Admin	Max Rady College of Medicine

4. Click on the users' name to add them to the protocol

5. Once they are added, complete the following:

- Select **Department**: this default to the users' primary department
- Select **Role**: this is the user's role for this specific protocol
- Import **CV**: this is the user's CV, optional (not required for Human Ethics Fort Garry)
- Import **CORE**: click **Import** to link the users CORE certificate

Note: all personnel must have CORE added to their user profile in the system. If they do not you must contact that person to get them to add it prior to submitting the protocol.

- Import **PHIA**: click **Import** to link the users PHIA certificate
- Note:** this is only required for the PI & Advisor prior to **submission** for studies that involve personal health information, all other research personnel must have this added to their profile for import prior to **approval**.

- Assign **Access**: this is the user's access to this protocol
 - Edit Access**: Gives the user edit access to the protocol. Usually given to Study Coordinators.
 - No Access**: Given to users that do not need to access the protocol in the system.
 - Read-Only Access**: Given to user that can access the protocol but only have read-only access, meaning they cannot edit the protocol.
 - Signature Authority**: This gives the user signing authority on the protocol

Note: Only the PI, Co-PI and Advisor roles can receive signing authority.
- Check the **CC** checkbox to have the user cc'd on all email notifications
- Oath of Confidentiality**: click attach to upload the user's oath of confidentiality
- Note:** this is required to be uploaded for each protocol personnel except for the PI, CO-PI and Advisor
- Choose the **Contact Level**: Primary or Secondary

Add On-The-Fly User

If you can't find someone in the Find Person lookup window when trying to add them to the research personnel table, you can add them on-the-fly.

Important: Most UM research personnel will be in the lookup. On-the-fly users are most likely external to the UM or students. Only **one** external research personnel is allowed **edit** or **view only** access to a protocol. Multiple no access external personnel may be added to the protocol. All on-the-fly personnel are reviewed by the Ethics Office at submission. If this rule is violated the protocol will be sent back to the PI to adjust.

1. Click on the **request that this person be added to the system** link

No Matches

...please refine your search,
 or [request that this person be added to the system](#).

2. Complete the following (all fields are mandatory):

- Enter the **Last Name**
- Enter **First Name**
- Enter **Email Address**
- Enter **Phone Number**
- Select the **CORE Training Date**
- Click on **Attach CORE Pledge** to upload the users CORE certificate

Add New Value

3. Click **Add**
4. The user's **Department** will default to the PI's department. Make sure to update this to **External** if adding someone external to the UM, If adding a student add the PI's department.
5. Select the **Role** and **Access** for this user

Note: If this user does not require access to this protocol, they will not be given a profile in the system.

6. Attach the **Oath of Confidentiality**

7. Select the **Contact Level**

Once the application/submission has been submitted to the Ethics Office, a task will be sent to ORS to add this new user to the system.

How to Add a Document

There are a few different areas within the initial application that allows you to upload documents.

Here is the Participants > Recruitment subtab

1. Click **Add**

Attach copies of all material that will be given/read to participants and/or third parties:

Recruitment Documents

Type	Name	Upload
<input type="checkbox"/> 1  Poster		<input type="button" value="Attach"/> 

2. Select the **Type** of document

3. Type in the **Name** of the document

4. Click **Attach**, find, and **Upload** the document

Recruitment Documents

Type	Name	Upload
<input type="checkbox"/> 1  Poster	Poster	Poster.pdf 

View All Documents

Throughout the initial application there are a few different places to add documents. You can view all uploaded documents under the Attachments tab.

Here you can view and/or add additional documents.

Amendment/Personnel Change

To create a new Amendment or Personnel Change form as a Designate:

1. Select the protocol link from the **LiveList**
2. Under **Actions** select **Create Amendment** or **Create Personnel Change**, click **Go**
 - a. **Amendment** – Complete all questions under Amendment Summary

Amendment Summary	Summary	Research Personnel	Participants	Consent Process	Data	Risks/Benefits	Dissemination/Withdrawing	Attachments	Submit

Save Initial Application or Follow-On Submission

The system will automatically save your progress when you navigate to a new tab within your submission. Do not exit your submission before navigating to a new tab or manually saving. To save an initial application or follow-on submission to complete it at a later date:

1. Click Save at the  top left-hand side of the screen
2. Click the **Home** menu item to return to the LiveList
3. The protocol is now listed in your **To Do List**

Continue Saved Initial Application or Follow-On Submission

To continue working on a saved initial application or follow-on submission:

1. Under the **To Do List**, find the saved initial application or follow-on submission task
2. Click link within the task

The PI will also see the new temporary protocol in their LiveList.

Remember: The PI can reassign this saved application to themselves to complete at any time as well. See **Delete or Reassign Task** section of the Lifecycle Event Manager for more information.

Submit an Initial Application or Follow-On Submission

Each application/submission form contains mandatory questions and logic to help ensure completeness.

When you attempt to submit the initial application or follow-on submission, the system will validate the completeness of the application. If a required field has not been completed, the submission will be stopped, and the user will be prompted to complete the incomplete fields. See [Errors on the Application](#) for more information.

To Submit an Initial Application or Follow-On Submission:

1. Complete each question contained within each of the tabs and sub tabs of the form
2. When all questions have been addressed navigate to the **Submit** tab
3. Enter any desired **Submission Notes** in the field provided
4. When a Designate is submitting the application, the **Declaration Statements** will be greyed out, these must be completed by the PI

I have reviewed the protocol contents and confirm that the information provided in this application is complete and correct.

I agree to abide by the ethical guidelines and policies of the REB, including the Tri-Council Policy Statement and the University of Manitoba Policy on the Ethics of Research Involving Humans.

I will ensure the study does not commence until the final certificate of approval has been issued by the REB.

I will ensure the study does not commence until approval has been granted by the appropriate organization, if applicable (e.g. chief and council, school board).

I will ensure all research team members (e.g. faculty, students, staff) handling data will have the appropriate training (e.g. CORE, PHIA).

I will ensure that study personnel are qualified, appropriately trained and will adhere to the REB-approved application.

I will notify the REB of any protocol changes and report adverse events/experiences as soon as possible.

I will submit any changes to this study to the appropriate REB for consideration before implementation.

I will submit a request for annual approval to the REB prior to the expiry date indicated on the approval certificate.

I will submit a Study Closure Form to the REB when all study activity is completed at the local site.

By providing my signature, I confirm that I have read the above terms and agree to comply with this and other university policies, guidelines and the Tri-Council Policy Statement (TCPS).

Revisions Required

After an application or submission has been reviewed and it is sent back from the HEO for revisions, the PI will receive an email notification and task to be completed in their To Do List.

The designate (or Study Coordinator) will also receive an email notification if they were cc'd under the Research Personnel section of the protocol. If the designate is to complete the revision task they can reassign the task to themselves. See **Delete or Reassign Task** section of the Lifecycle Event Manager.

1. Under the **To Do List**, find the Revise task
2. Click the link within the task

3. There are 2 main sections in this view: **Review** and **Application** section

Remember: The Review section can change based on who has provided the review. The example below is a Chair Review, you may also see HEO Review or Member Review.
