Initial Application

To create a new Human Ethics Protocol as a PI:

1. Under the **Create New** menu item select **Human Ethics Protocol**

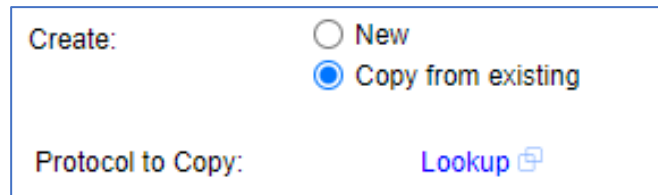

Note: The newly created protocol will receive a temporary protocol number while the application is in development. Once the application is submitted, a final Human Ethics Protocol number will be assigned.

2. Start filling out the following information to start your new protocol:

- a. **Create** – New or Copy from Existing

- i. To **copy from existing** protocol, click the **Lookup** link the Lookup Protocol to Copy window will appear

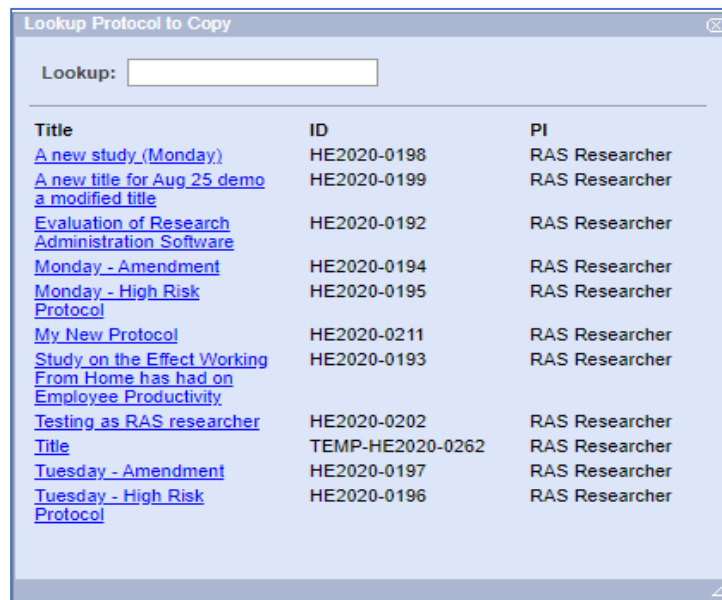

The screenshot shows a form with the following elements:

- Create:** Two radio buttons are present: 'New' (unselected) and 'Copy from existing' (selected).
- Protocol to Copy:** A text input field is followed by a blue 'Lookup' button with a magnifying glass icon.

- ii. Search and select the protocol you wish to copy

Note: You will only be able to copy protocols you have access to.

The screenshot shows a window titled 'Lookup Protocol to Copy' with a search bar and a table of results.

Adding Research Personnel

Add additional research personnel to the protocol.

1. Navigate to the Research Personnel tab
2. Click **Add** under the Protocol Personnel table

4. Click on the user's name to add them to the protocol
5. Once they are added, complete the following:
 - a. Select **Department**: this default to the users' primary department
 - b. Select **Role**: this is the user's role for this specific protocol
 - c. Import **CV**: this is the user's CV, optional (not required for Human Ethics Fort Garry)
 - d. Import **CORE**: click **Import** to link the users CORE certificate
Note: all personnel must have CORE added to their user profile in the system. If they do not, you must contact that person to get them to add it prior to submitting the protocol.
 - e. Import **PHIA**: click **Import** to link the users PHIA certificate
Note: this is only required for the PI & Advisor prior to **submission** for studies that involve personal health information, all other research personnel must have this added to their profile for import prior to **approval**.
 - f. Assign **Access**: this is the user's access to this protocol
 - i. **Edit Access**: Gives the user edit access to the protocol. Usually given to Study Coordinators.
 - ii. **No Access**: Given to users that do not need to access the protocol in the system.
 - iii. **Read-Only Access**: Given to user that can access the protocol but only have read-only access, meaning they cannot edit the protocol.
 - iv. **Signature Authority**: This gives the user signing authority on the protocol
Note: Only the PI, Co-PI and Advisor roles can receive signing authority.
 - g. Check the **CC** checkbox to have the user cc'd on all email notifications
 - h. **Oath of Confidentiality**: click attach to upload the user's oath of confidentiality
Note: this is required to be uploaded for each protocol personnel except for the PI, CO-PI and Advisor
 - i. Choose the **Contact Level**: Primary or Secondary

Add On-The-Fly User

If you can't find someone in the Find Person lookup window when trying to add them to the research personnel table, you can add them on-the-fly.

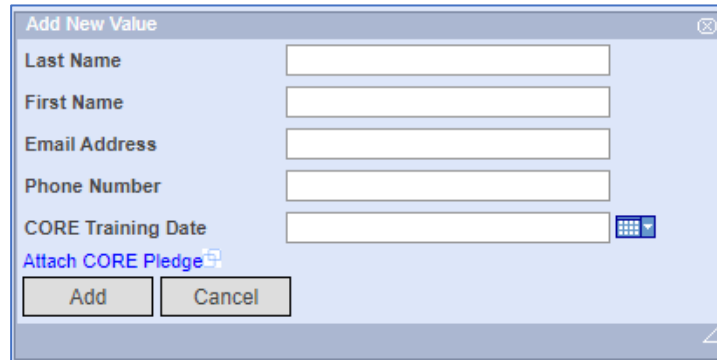

Important: Most UM research personnel will be in the lookup. On-the-fly users are most likely external to the UM or students. Only one external research personnel are allowed **edit** or **view only** access to a protocol. Multiple no access external personnel may be added to the protocol. All on-the-fly personnel are reviewed by the Ethics Office at submission. If this rule is violated the protocol will be sent back to the PI to adjust.

1. Click on the **request that this person be added to the system** link

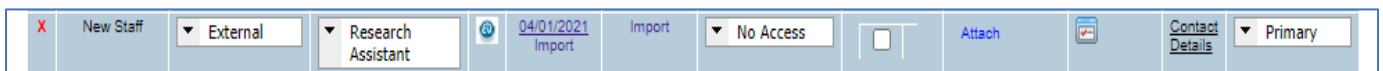

No Matches

...please refine your search,
 or [request that this person be added to the system.](#)

2. Complete the following (all fields are mandatory):
 - a. Enter the **Last Name**
 - b. Enter **First Name**
 - c. Enter **Email Address**
 - d. Enter **Phone Number**
 - e. Select the **CORE Training Date**
 - f. Click on **Attach CORE Pledge** to upload the users CORE certificate

3. Click **Add**
4. The user's **Department** will default to the PIs department. Make sure to update this to **External** if adding someone external to the UM, If adding a student add the PIs department.
5. Select the **Role** and **Access** for this user
Note: If this user does not require access to this protocol, they will not be given a profile in the system.
6. Attach the **Oath of Confidentiality**
7. Select the **Contact Level**

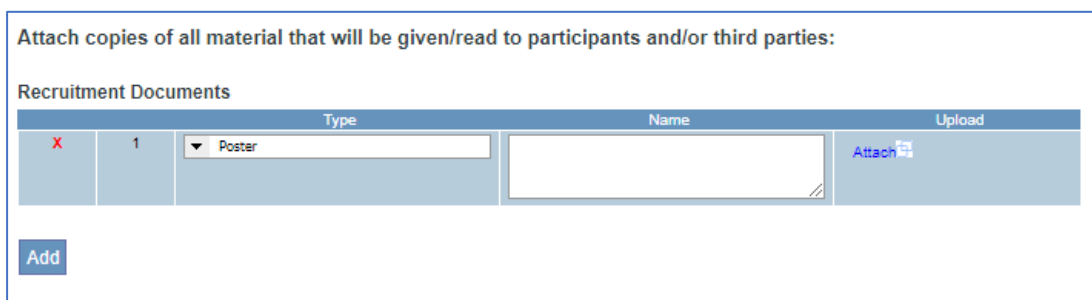

Once the application/submission has been submitted to the Ethics Office, a task will be sent to ORS to add this new user to the system.

How to Add a Document

There are a few different areas within the initial application that allows you to upload documents.

Here is the Participants > Recruitment subtab

1. Click **Add**

2. Select the **Type** of document
3. Type in the **Name** of the document
4. Click **Attach**, find and **Upload** the document

Save Initial Application or Follow-On Submission

The system will automatically save your progress when you navigate to a new tab within your submission. Do not exit your submission before navigating to a new tab or manually saving. To save an initial application or follow-on submission to complete it at a later date:

1. Click Save at the  top left-hand side of the screen
2. Click the Home menu item to return to the LiveList
3. The protocol is now listed in your To Do List

Figure 1: Example of the Saved Initial Application

Figure 2: Example of the Saved Amendment

Continue Saved Initial Application or Follow-On Submission

To continue working on a saved initial application or follow-on submission:

1. Under the **To Do List**, find the saved initial application or follow-on submission task
2. Click the link within the task

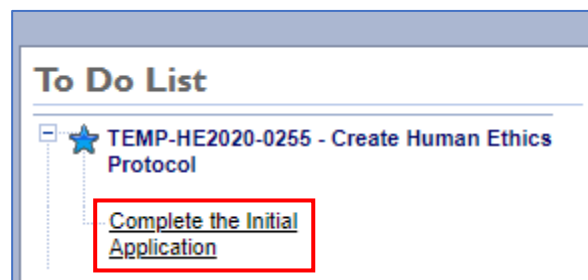

Figure 3: Example of the Saved Initial Application

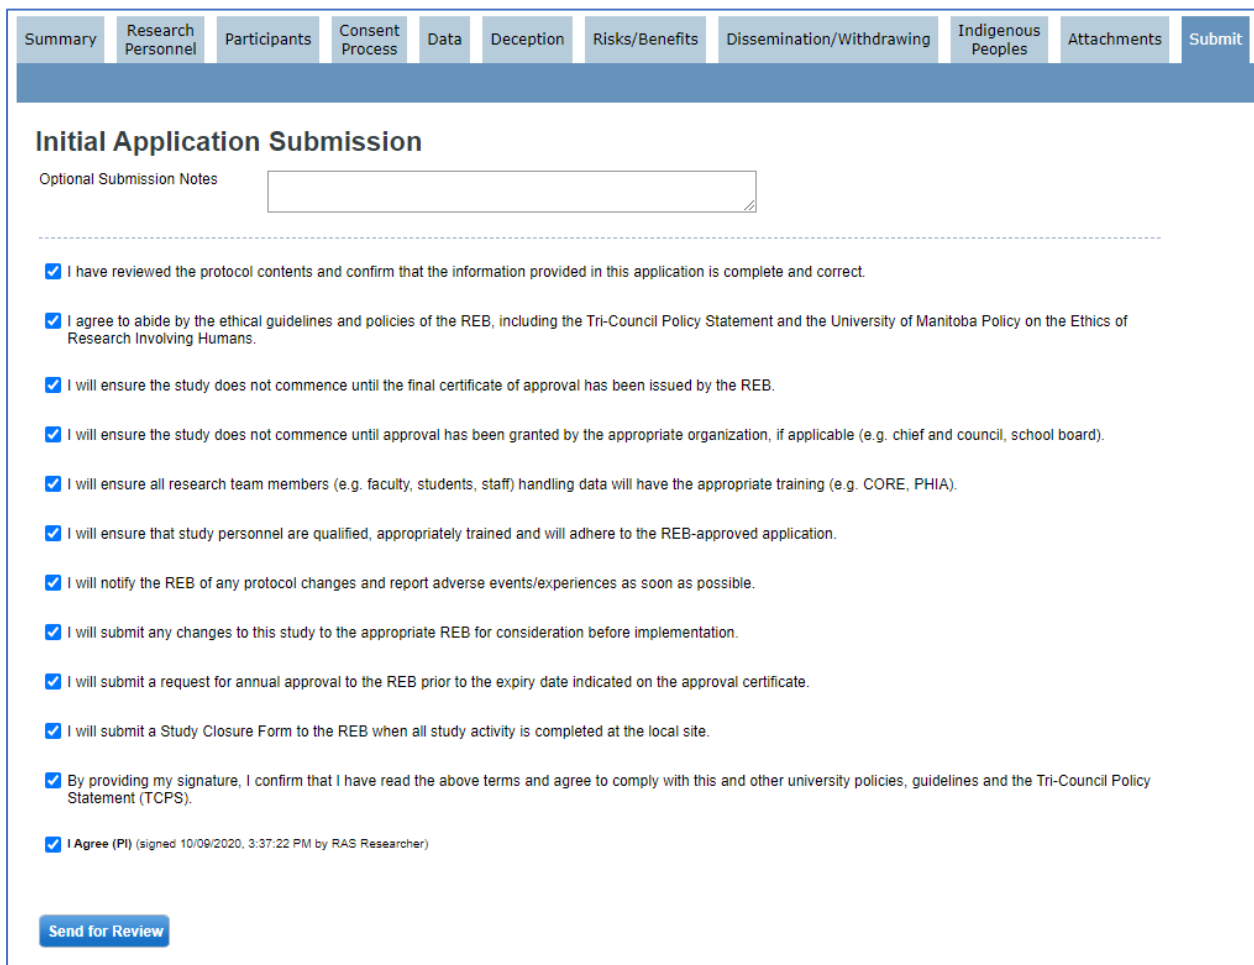

Submit an Initial Application or Follow-On Submission

Each application/submission form contains mandatory questions and logic to help ensure completeness.

When you attempt to submit the initial application or follow-on submission, the system will validate the completeness of the application. If a required field has not been completed, the submission will be stopped, and the user will be prompted to complete the incomplete fields. See [Errors on the Application](#) for more information.

To Submit an Initial Application or Follow-On Submission:

1. Complete each question contained within each of the tabs and sub tabs of the form
2. When all questions have been addressed navigate to the **Submit** tab
3. Enter any desired **Submission Notes** in the field provided
4. Read and check each of the **Declaration Statements**

Errors on the Initial Application or Follow-On Submission

If you get an error stating Incomplete Application, this means there are missed questions that need to be addressed.

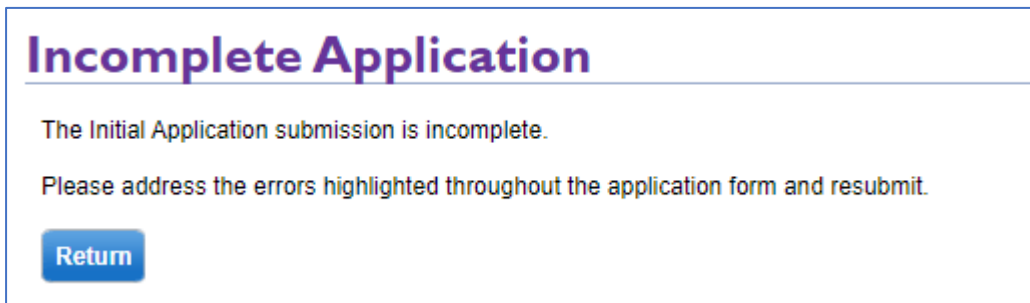

Figure 6: Example of an incomplete Initial Application

Click **Return**

The form will return to the first error on your form. Errors are indicated by a red asterisk on the tab along with a red box around the subtab. Once you select the location of the error, the individual question will be marked with Required beside it.

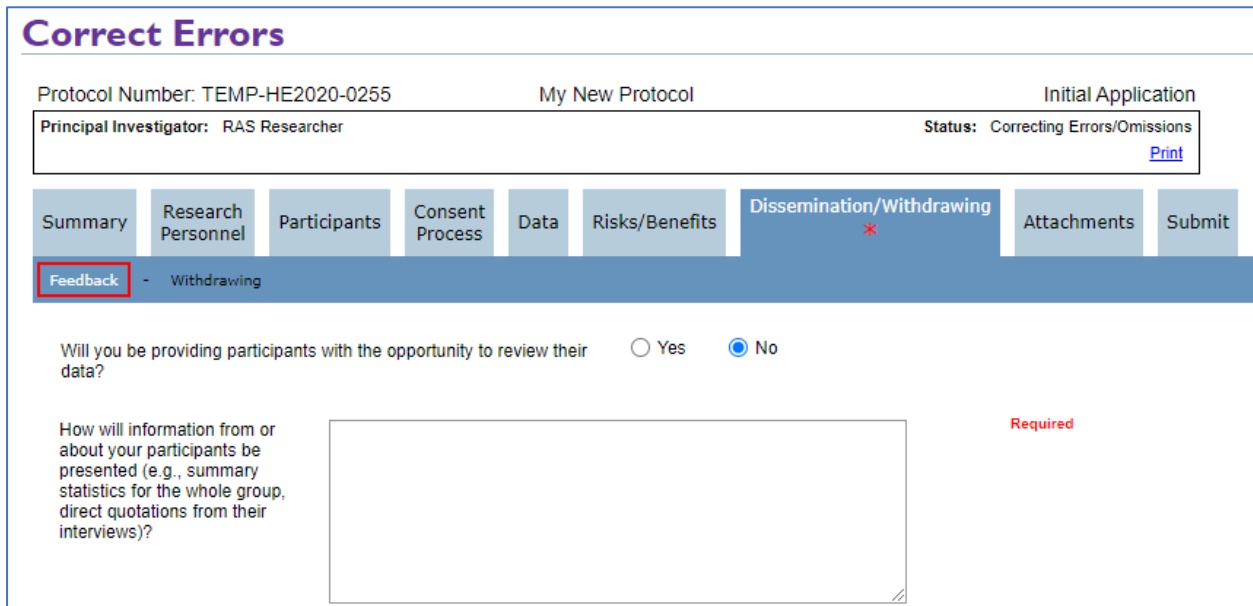

Figure 7: Example of errors on the Initial Application

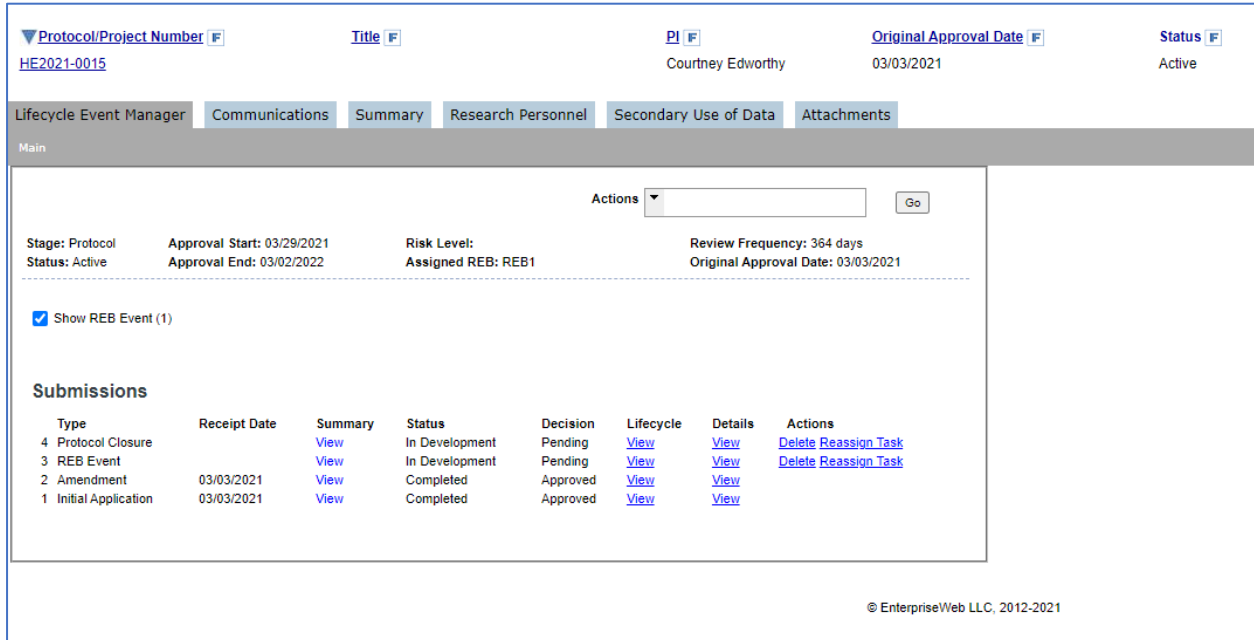

Once you complete all errors indicated, click the **Submit** tab and resubmit the application.

After the submission has gone through, you can view the protocol in the LiveList.

After Submission

Once you have submitted the initial application or follow-on submission, you can view its progress in the LiveList.

1. Navigate to the LiveList
2. Select the protocol from the list by clicking on the protocol number link under the **Protocol/Project Number** column

The screenshot shows the 'Protocol/Project Number' column with the value 'HE2021-0015'. Other details include 'Title: Courtney Edworthy', 'Original Approval Date: 03/03/2021', and 'Status: Active'. The interface includes tabs for 'Lifecycle Event Manager', 'Communications', 'Summary', 'Research Personnel', 'Secondary Use of Data', and 'Attachments'. The 'Main' section displays a summary of the protocol's stage and status, along with a table of submissions.

Revisions Required

After an application or submission has been reviewed and it is sent back from the HEO for revisions, the PI will receive an email notification and task to be completed in their To Do List.

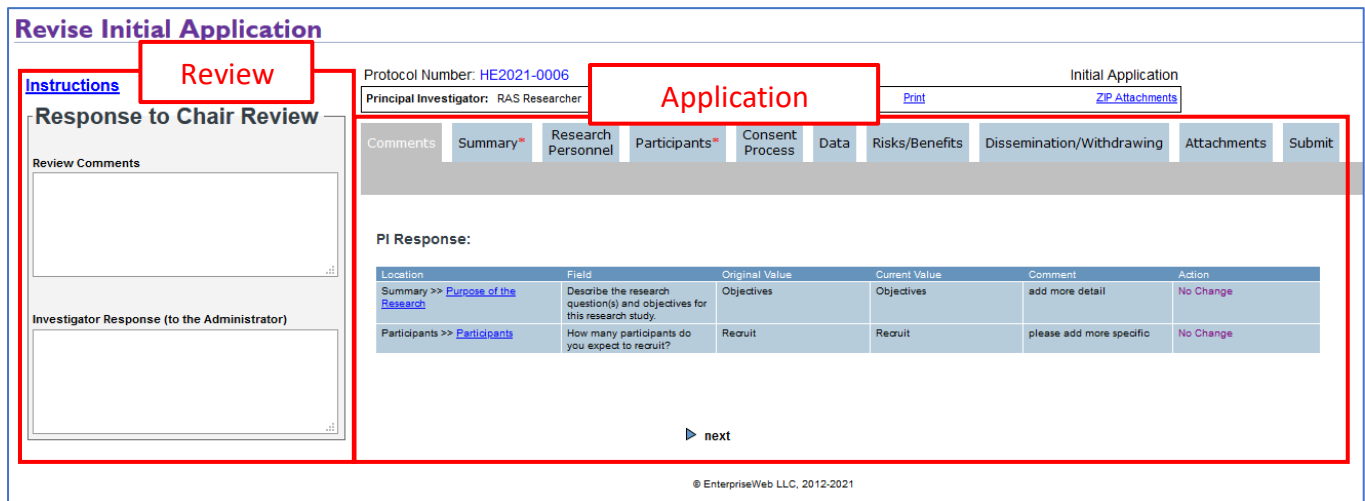

1. Under the **To Do List**, find the Revise task
2. Click the link within the task

Note: You can click the link in the Email notification, this will bring you to the task as well.

3. There are 2 main sections in this view: **Review** and **Application** section

Remember: The Review section can change based on who has provided the review. The example below is a Chair Review, you may also see HEO Review or Member Review.
