

DIRECT ENTRY ADMISSION REQUIREMENT UPDATE

Fall 2022

The University of Manitoba is moving to a new four course model for direct entry admissions. The new model requires all programs to include a grade 12 (senior level) Mathematics and English course in the admission average calculation. In addition, the new model features varying minimum course averages by program.

The new program-specific admission requirements effective for the Fall 2022 intake are listed in the table below. Any programs **not** listed in the table below changed in Fall 2021 or will not be changing and their requirements may be found in the [Direct entry admission requirements](#).

Please note that the general entrance requirements for all programs (high school graduation including five full credits at the senior level) will remain unchanged.
