WELCOME TO SUMMER TERM

Whether you’re a new student getting a head-start on your admission requirements, or you’re a continuing student taking a couple of summer courses, you will need to make decisions about your course selection.

Summer Term is a great opportunity to take courses, however Summer Term is unique and requires careful planning.

With so many decisions and opportunities ahead of you, getting started may require some guidance. That’s why we’re here.

The academic advising team in the First Year Centre offers both academic advising and student success resources to all first-year students.

This guide is interactive. You can click any words underlined and in bold for more information.

---

**STEPS TO REGISTER FOR SUMMER TERM CLASSES**

1. **ACCEPT YOUR OFFER OF ADMISSION**
   To accept your offer of admission, go back to the online application portal and click on the “Accept” button in your admission offer letter.

2. **CLAIM YOUR UM NET ID**
   Your UM Net ID gives you access to your student e-mail, Microsoft Teams, UM Learn, online library resources, campus WiFi, and more.

3. **CHOOSE YOUR TARGET DEGREE/PROGRAM(S)**
   Use the First Year Planning Guide to review the degree and program options available at UM.

4. **CHOOSE YOUR COURSES**
   Review the program planning pages in the First Year Planning Guide to determine which courses to take in your first year and the requirements for your target degree program.

5. **CREATE YOUR TIMETABLE**
   Follow the step by step instructions in this guide to help you create a schedule for your classes.

6. **REGISTER FOR COURSES**
   You’re almost there! Once you’ve created a timetable, log in to Aurora to take the last step and register for courses.

DEFINITIONS YOU NEED TO KNOW

University has a language all of its own! Knowing the terms and definitions will help you to make informed decisions. Here are some terms you may encounter as you prepare for your first year.

ACADEMIC CALENDAR – UM’s official publication containing course descriptions, program and graduation requirements, as well as the that’UM and faculty/school specific rules, regulations and policies. Available at umanitoba.ca/calendar

AURORA – the UM online registration and student information system. Students will use Aurora to register for classes, check their fees, view their class schedule, and access their student records and final grades. Available at aurora.umanitoba.ca

COREQUISITE – A course that must be completed in the same term as a second course.

COURSE ADD DEADLINE – The last day you can register/add a course in the Summer Term. There are several Course Add Deadlines in the Summer Term. Check the Summer Important Dates to determine the deadline for each course.

COURSE DROP DEADLINE – The last day you can drop a course in the Summer Term. Courses dropped by this deadline do not appear on your academic record and you will not have to pay for the course. There are several Course Drop Deadlines in the Summer Term. Check the Summer Important Dates to determine the deadline for each course.

CREDIT HOURS – The hours of credit assigned to a course. 3 credit hour courses run over one term (ex. September-December, January-April). 6 credit hour courses run over two terms and are called ‘spanned’ courses.

DISTANCE AND ONLINE EDUCATION – Online courses that do not include a scheduled lecture time where you need to be logged in. Students complete course work independently, on their own time.

ELECTIVES – Most programs have a certain number of credit hours that you are free to choose. An elective may be any course from the Recommended Introductory Courses List.

GRADE POINT AVERAGE (GPA) – A number representing the average value of final grades.

INITIAL REGISTRATION TIME – The day and time when you are given access to Aurora to begin your registration.

LABS/TUTORIALS – Instructional teaching periods for practical hands-on learning in addition to lecture time.

LECTURE – Time spent in class for course instruction.

(M) MATHEMATICS REQUIREMENT – All students at UM are required to complete a minimum of one 3 credit hour course with significant content in mathematics. Some programs require a math course(s) for admission. Courses in the First Year Planning Guide that satisfy the mathematics requirement are noted with an (M) after the course code.

‘MAY NOT BE HELD WITH’ – Some courses have significant content overlap and may not be held for credit together. (ex. BIOL 1000 and BIOL 1020). Review a course’s description in the Academic Calendar.

PREREQUISITE – A course which must be satisfactorily completed before a more advanced course may be taken. When registering for courses, add the prerequisite course first.

REGULAR SESSION – The academic session when courses are offered between the months of September to April.

SPANNED COURSE – A class that is scheduled over multiple terms of study, usually Fall-Winter or Winter-Summer.

SUMMER TERM – The academic session when courses are offered in the months of May, June, July and August.

SYLLABUS – An outline of the entire course which includes all assignment and test dates as well as the grading scale used for the course.

TARGET DEGREE PROGRAM – Your faculty or school of choice.

UM LEARN – The University of Manitoba’s online learning management system where you can access course information and materials. Available at umanitoba.ca/umlearn

UNDERGRADUATE DEGREE – The first degree program completed within university level studies. For example, Bachelor of Arts (B.A.) or Bachelor of Science (B.Sc.).

VOLUNTARY WITHDRAWAL (VW) – VW is when you drop a course between the Course Drop Deadline and the VW Deadline. When you VW from a course, it will remain on your academic record, but you will not receive a final grade. You will still owe the full tuition fees (tuition is not refunded). Check the Summer Important Dates to determine the VW deadline for each course.

(W) WRITTEN REQUIREMENT – All students at UM are required to complete a minimum of one 3 credit hour course with significant content in written English. Some programs require a written course(s) for admission. Courses in the First Year Planning Guide that satisfy the written requirement are noted with a (W) after the course code.
SUMMER COURSE PLANNING BASICS

Here is some basic information about Summer Term courses to help you in your planning:

Courses are offered in three formats/schedules/terms

- May to June
- July to August
- May to August

Each course has a credit hour value: usually 3 or 6

- We typically recommend taking no more than 3-6 credit hours (1-2 courses) over the Summer Term, though you can register in a maximum of 18 credit hours.
- Refer to the Determine Your Course Load section to help you decide the right number of courses for you.

MAY TO JUNE

3 CREDIT HOURS

E.g. BIOL 1020 + lab

JULY TO AUGUST

3 CREDIT HOURS

MAY TO AUGUST

3 CREDIT HOURS

OR

6 CREDIT HOURS

Download a Course Planning Form here
DETERMINE YOUR COURSE LOAD

We highly recommend that you contact an Academic Advisor in the First Year Centre if you have any questions about course load in the Summer Term.

MOST SUMMER TERM COURSES ARE SHORT AND INTENSE

- Most Summer Term courses are fast-paced and intense. Material that is covered over a 3 month period in a Fall or Winter Term may be covered in as little as 5 weeks in the Summer Term. This means you could be in class every day for each course.

The example below shows how STAT 1000 is scheduled in the Summer Term compared to how it is scheduled in the Fall (or Winter) Term. You can see that in the Summer Term you have more classes and labs/tutorials per week.

STAT 1000 IN SUMMER TERM

<table>
<thead>
<tr>
<th>MAY TO JUNE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday</td>
</tr>
<tr>
<td>9:00</td>
</tr>
<tr>
<td>STAT 1000 Lecture 9:00 -10:15 AM</td>
</tr>
<tr>
<td>10:30</td>
</tr>
<tr>
<td>STAT 1000 Lab/tutorial 10:45 -11:45 AM</td>
</tr>
</tbody>
</table>

STAT 1000 IN FALL TERM

<table>
<thead>
<tr>
<th>SEPTEMBER TO DECEMBER</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday</td>
</tr>
<tr>
<td>8:30</td>
</tr>
<tr>
<td>STAT 1000 Lecture 8:30 - 9:45 AM</td>
</tr>
<tr>
<td>9:30</td>
</tr>
<tr>
<td>10:00</td>
</tr>
<tr>
<td>STAT 1000 Lab/tutorial 10:00 -10:50 AM</td>
</tr>
</tbody>
</table>

- It’s important to check the schedule for each course in Aurora to determine if the dates and times will work for you.

- **Important dates and deadlines** (such as the refund deadline, Voluntary Withdrawal deadline, and test and assignment dates) come up very quickly and can be different for each course. You will need to keep track of dates and deadlines for each course, and make academic decisions very quickly.

- While you are allowed to register in a maximum of 18 credit hours over the Summer Term, we typically recommended taking just 3–6 credit hours (1-2 courses) at a time due the fast pace of Summer Term courses.
WHAT OTHER COMMITMENTS DO YOU HAVE?
- Given that you could be in classes and studying for several hours each day, it can be difficult to have time for commitments outside of school (such as work, volunteering, sports, and family or social commitments) during the Summer Term.
- Keep all of your commitments in mind when deciding how many courses you can successfully manage.

WHAT ARE THE ADMISSION REQUIREMENTS OR THE FIRST YEAR COURSES FOR YOUR TARGET DEGREE OR PROGRAM?
- Review the specific program pages in the First Year Planning Guide to learn which first-year courses you need to take to be able to apply for your target degree or program. Refer to the grey admission box for each program in the First Year Planning Guide to confirm the required credit hours for admission.
- Contact an Academic Advisor in the First Year Centre to find out if you can use the Summer Term to complete the admission requirements for your target degree.

DO YOU NEED TO MEET A MINIMUM COURSE LOAD REQUIREMENT?
- If you have been awarded a scholarship, student loan, or other type of funding, it is important that you know the course load amount necessary to meet your funding requirements (ex. 60% or 80% course load). Contact the Financial Aid and Awards office to confirm what course load meets your specific situation.
- If you are an international student, please contact the International Centre to determine if you are required to be a Full-Time student during the Summer Term.

DO YOU NEED TO UPGRADE YOUR HIGH SCHOOL PREREQUISITES?
- Some university-level courses may require that you first complete Grade 12 (40S) courses such as Biology, Chemistry, Mathematics (Pre-Calculus or Applied), or Physics.
- Click the course code ex. MATH 1500 of any course in the First Year Planning Guide to learn essential information, such as course descriptions and prerequisites.
- If you did not complete these requirements in high school or you did not achieve the grade necessary for prerequisite purposes, you may take these courses as part of your schedule at university or at an Adult Education Centre. See Upgrading Courses in the First Year Planning Guide for complete details on how to upgrade your high school courses.
- Please note that some upgrading courses are not considered for university credit and may not count in your overall credit hour total.

HAVE YOU TAKEN ADVANCED PLACEMENT (AP) OR INTERNATIONAL BACCALAUREATE (IB) COURSES?
- If you completed AP or IB courses in high school, wrote the exams, and attained the minimum score, you may be eligible for transfer credit to reduce your first year course load. Learn about which AP or IB courses are equivalent to UM courses and the minimum grades required on the Admissions Office website.
- AP or IB credits are not automatically transferred. If you decide that you want to transfer your credit, you must submit a form to Enrolment Services. This form can be found on the Admissions Office website.

If you have any questions about determining your course load, contact an Academic Advisor in the First Year Centre.
CHOOSE YOUR COURSES

The Summer Term can be a great way to get a head start on your studies! To ensure you also get off to a strong start, it is important to choose your courses strategically.

COURSE SELECTION RESOURCES

- The First Year Planning Guide is the primary tool you will use for course selection for the Summer Term and throughout your first year at UM. Each degree has a page that explains which courses to take in your first year.

IF YOU HAVE ONE DEGREE PROGRAM YOU ARE PLANNING TO TARGET

Choose your courses from the First Year Courses chart for your target degree program. All courses listed in the chart are required in the degree program, but may not be required for admission. Refer to the grey admission box (underneath the First Year Courses chart on each program page) for minimum admission requirements. Also see Tips for Choosing Courses for more specific details.

IF YOU ARE INTERESTED IN MORE THAN ONE DEGREE PROGRAM

Compare the First Year Courses chart and the Tips for Choosing Courses section for each of the degree programs you’re interested in to see if there are any common courses you can take.

IF YOU AREN’T SURE WHICH DEGREE PROGRAM YOU WANT TO PURSUE, THAT’S OK!

Review the Undecided program page in the First Year Planning Guide.

• Get Ready to Register for Summer Zoom session: This session will show you how to use the First Year Planning Guide to choose your courses and how to make course selections that will work for you in the Summer Term!

COURSE SELECTION ADVICE

- Most degrees offer admission only in the Fall Term. Starting in Summer gives you a great head start, and may allow you to lighten your course load during Fall and Winter.

- Keep in mind that not all first-year courses are offered during Summer, so remain flexible with your course planning.

- Consider registering for only 1-2 courses so you have time to adjust to university studies and successfully manage the intense pace of the courses.

- Be aware of courses that have labs/tutorials as these will add to your course load.

- If you do not have a strong background in a specific course, take it in the Fall or Winter Term instead so you can do the course at a slower pace.

- If your target degree includes electives, consider completing one over the summer. Electives can be chosen from a wide variety of subjects. This gives you more flexibility to find a course that you are genuinely interested in and that you feel you can manage well during the intense Summer Term.

- Consider using the Summer Term to upgrade high school prerequisites you may be missing. Check out the Upgrading Courses section in the First Year Planning Guide for options.
CREATE YOUR TIMETABLE

After you decide which courses you want to take, you will need to create a timetable. Courses are offered at a variety times throughout the day. It is up to you to make a schedule that best suits your lifestyle and commitments.

1. Download or Print a Timetable Planning Form

Use the Timetable Planning Form to see how your classes will be distributed throughout the week.

Classes are offered on various days and times throughout the week. In Aurora, days of the week are listed as:

- M = Monday
- T = Tuesday
- W = Wednesday
- R = Thursday
- F = Friday

Many Summer Term classes run Monday to Thursday, but schedules vary considerably. Some classes also have a labs/tutorials component in addition to the lecture times. You will need to check Aurora to find the schedule for each of your courses and labs/tutorials.

### MAY TO JUNE

<table>
<thead>
<tr>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Lecture MTWR, four times a week, 75 minutes long

### JULY TO AUGUST

<table>
<thead>
<tr>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Lecture MW or TR, two times a week, 2 hours and 45 minutes long

- Labs/tutorials or evening classes, one or two times a week, 50 minutes to 3 hours long

### MAY TO AUGUST

DISTANCE AND ONLINE EDUCATION COURSES

Distance and Online Education sections of a course (ex. D01, D02) have no scheduled class time, so you can do the coursework on your own time.

[Download a Timetable Planning Form here](https://UMANITOBA.CA/FIRSTYEAR)
**2. IDENTIFY WHEN CLASSES ARE OFFERED**

You will need to plan your timetable using information found in **Aurora**, UM’s online registration and student information system.

---

Watch this short video, **How to Register Using Aurora.**

---

In **Aurora**, use the Look Up Classes function to search for courses you’d like to register in.

**From the Look Up Classes screen in Aurora you will be able to determine:**

- Days and times the course is offered
- Course sections
  - Lecture sections start with 'A' (ex. A01, A02)
  - Labs/tutorials start with 'B' (ex. B01, B02)
  - Distance and Online Education sections start with 'D' (ex. D01, D02)
- CRN (4 or 5 digit Course Reference Number)
- Other important information (often in bold)
### FILL IN YOUR TIMETABLE

Plan your timetable by adding each course to the Timetable Planning Form.

Summer Term courses are offered in two different formats: **In-Person and Distance and Online Education**.

- **In-Person** sections of a course have specific meeting times and locations.
- **Distance and Online Education** sections of a course (ex. D01, D02) do not have a scheduled lecture time when you need to be logged in. This allows you to go through the course material independently on your own time, however term tests and the final exam will be at a set day and time scheduled in the Central Standard time (CDT/CST) time zone.

When building a timetable, it is critical to prioritize which courses to add to your timetable first.

**PRIORITIZE:**

- Courses that are offered with the least number of sections, as these offer less flexibility and may fill up more quickly.
- Courses that require both a lecture and a lab section, as these can be challenging to fit into a timetable.

REGISTERING FOR SUMMER TERM CLASSES

By the time you are ready to register for courses, your timetable should be planned. If you have not already done so, watch this short video, How to Register Using Aurora.

1 DETERMINE YOUR INITIAL REGISTRATION TIME

- All students are given a specific date and time to begin registering for Summer Term courses. This is called your Initial Registration Time and it is the earliest date that you can register. It is your best chance of getting into the courses you want.
- Check your assigned Initial Registration Time in Aurora on or after March 28, 2022.
- In Aurora, go to:
  - Enrolment & Academic Records
  - Registration and Exams
  - Registration Time and Status
- All students are assigned an Initial Registration Time between April 4–7, 2022.

2 REGISTER FOR CLASSES USING AURORA

- Please watch How to Register Using Aurora before your initial registration time.
- If the course you want to register for is full, you may be able to add yourself to a waitlist. Watch the Aurora video for details on how to add yourself to a waitlist.
- Make adjustments to your registration before the applicable Course Add Deadline and Course Drop Deadline. Each of your courses could have different deadlines. Since most Summer term courses are condensed, the Course Add Deadline and the Course Drop Deadline could be only a few days after the course begins.
- If you receive a registration error message, consult Registration Errors. This site has explanations of error messages and instructions for how to resolve registration issues.

3 CONFIRM YOUR REGISTRATION

- Confirm your registration by checking your Student Detail Schedule.
- In Aurora, go to:
  - Enrolment & Academic Records
  - Registration and Exams
  - Student Detail Schedule

4 CHECK YOUR FEES

- Check Aurora for a fee balance, also called your account summary.
  - In Aurora, go to:
    - Enrolment & Academic Records
    - Student Records
    - View Account Summary by Term
- Be sure to confirm your account summary whenever you make changes to your registration.

5 GET YOUR BOOK LIST

- A book list for the courses you are registered in will be available through Aurora before your classes begin.
- In Aurora, go to:
  - Enrolment & Academic Records
  - Student Records
  - View Booklist

NEED SOME ADDITIONAL GUIDANCE?

- Attend or watch a recording of the Get Ready to Register for Summer Zoom session offered by the First Year Centre.
- Connect with an Academic Advisor in the First Year Centre if you have questions during the course planning process.
- Explore your options with career planning resources or connect with Career Services to meet with a Career Consultant.
IMPORTANT DATES
