

# **THE UNIVERSITY OF MANITOBA**

**141st ANNUAL SPRING CONVOCATION**

**2020**

# To the class of 2020

In any year, Convocation symbolizes the culmination of a personal journey—one that can be grueling and yet full of discovery. In 2020, this statement could not be more true. Although this has been a most unusual year for the entire world, this pandemic does not have to define us.

What defines you are your life experiences, memorable people, and most importantly—that which you find within yourself: your attitude, your inner strength, your curiosity and compassion. Never be afraid to ask for support, or to offer it to others. Remain open to the idea of possibility. Embrace the power of working together; all people, all disciplines, all communities, all races, since diversity will only strengthen our society. We need to work together now more than ever.

This year, Convocation will be different in format, but the meaning and reason we gather to celebrate remains the same. We will applaud those of you who came to the University of Manitoba to uncover new pathways to grow understanding and advance reconciliation, to inspire creative works that will enrich our arts communities, to develop tomorrow's technology and continue to build a prosperous future for Manitoba. We will celebrate those of you who are driven to prevent infectious diseases on a global scale and closer to home, many of you already joining COVID-19 efforts in our province.

At the University of Manitoba, you found your voice and we have no doubt you will continue to find new ways to use your passion to spark change. From here, you can go anywhere. Congratulations on all you've achieved.

Chancellor

## ACADEMIC DRESS

Guests at Convocation will readily conclude that the academic dress worn by graduands and members of the academic procession is both colourful and varied. The significance of academic dress may not be so apparent.

Academic dress includes a gown, hood (worn over the shoulders), and a cap or mortarboard. All universities have distinctive academic dress for each degree offered. This explains the variety of academic dress worn by members of the academic procession who have graduated from many different institutions.

The University of Manitoba has patterned its academic dress after the British tradition using the Oxford gown as the model. The Oxford attire is a modified form of the garments worn by its members in medieval times, sometimes attributed to the need for warmth in their damp halls of learning. There are three types of gowns at the University of Manitoba: the Bachelor's and Master's gowns are black; the Doctor of Philosophy gown is black with red velvet bars on sleeves and front panels; and the Honorary Doctor's gown is scarlet. Mortarboards are black with a black tassel and are worn by all graduands except for honorary graduands; they wear round brimmed caps of black velvet with a gold tassel.

It is the hood which signifies the degree to be presented to the graduand. The hoods for Bachelor's degrees all have the common characteristics of black material edged with white borg material. Hoods for each of the Bachelor's degrees at the University have a distinctive lining ranging from no lining (black) for Arts, to green for Agriculture, to gold for Science. Similarly hoods for the various Master's degrees have a distinctive lining but can be differentiated from Bachelor's hoods by the absence of a borg edging. Hoods for Honorary Doctor's degrees are scarlet with different linings: white indicates an Honorary Doctor of Laws; yellow, an Honorary Doctor of Science; and slate blue, an Honorary Doctor of Letters. See the following page for a complete listing of the colours of all hood linings.

Senate must approve any changes in academic dress. The Senate Committee on Academic Dress, which includes the Director of the School of Art and the Head of the Department of Interior Design, makes recommendations to Senate on the academic dress of graduands, the Chancellor, the Vice-Chancellor, the Marshalls, and other officers of Convocation.
