

THE UNIVERSITY OF MANITOBA

144th ANNUAL CONVOCATION

2023

LAND ACKNOWLEDGEMENT

The University of Manitoba campuses are located on original lands
of Anishinaabeg, Cree, Oji-Cree, Dakota and Dene peoples,
and on the homeland of the Red River Métis.

We respect the Treaties that were made on these territories,
we acknowledge the harms and mistakes of the past, and we dedicate ourselves
to move forward in partnership with Indigenous communities
in a spirit of Reconciliation and collaboration.

HONOUR SONG

Beginning each convocation ceremony with an Honour Song is a sign
of respect and recognition of the Indigenous People as caretakers of this land.

It recognizes our collective identities, cultures and languages,
and the ongoing commitment of the university to Reconciliation.

This song acknowledges the significant accomplishments of the graduates'
journeys as well as their transition into the next stages in their lives.

CHANCELLOR’S AND PRESIDENT’S REGALIA

In the fall of 2022, in consultation with members of the Indigenous community at UM and a committee led by Catherine Cook, Vice-President Indigenous, new academic regalia were commissioned for the Chancellor and the President. The new robe designs honour the first peoples of these lands, demonstrating UM’s commitment to Reconciliation and supporting a graduation experience that feels more welcoming for Indigenous students.

Jacqueline “Jackie” Traverse, a UM alum and Ojibway woman from the Lake St. Martin First Nation, developed the designs in partnership with beader Shannon Denney-Edwards and robe fabricator Beverli Barnes. An accomplished multi-media artist, Ms. Traverse draws her inspiration from her culture and her experiences as an Indigenous woman living in Winnipeg.

The robes are constructed of black silk and employ gold piping as a nod to the design the President and Chancellor have worn to date, which were modeled after the University of Oxford’s academic dress. On these re-imagined gowns, motifs have been applied through a combination of embroidery and traditional beading using gold accents. Ms. Traverse explains how each aspect has a deeper meaning:

“The crocuses represent Manitoba and give us our sense of place. The use of the white, yellow, black and red represent the four nations. The use of red and orange represent the missing Indigenous women and children. The roots symbolize our connections to this institution and to one another.”

The robes will be worn for the first time at Spring Convocation 2023.

CHANCELLOR'S MESSAGE

Mamhtákosiwin, gígíi-minojígem, yawashte, kischí-iteyhta-mashchóhin, nezu annellassi, félicitations!

As Chancellor of the University of Manitoba, it is my great pleasure to congratulate the remarkable Class of 2023. You now join our alumni community—a community who shares the best of the University of Manitoba spirit wherever they go.

You are graduating! As you reflect on what it took you to get to this moment, be filled with awe. You faced so much during your studies at a particularly challenging time in history. You have persevered and no doubt been stretched and grown.

You have reached deep within yourselves to get to this day. You have also likely reached out to others, both to lend support and to receive it. Take some time to thank those special people who have supported you. And never forget how important it is to help and be helped.

As you move forward, look for ways to contribute, and create positive change. Serving others adds tremendous meaning to our lives and can even transform them. You have cultivated talents the world needs. Please share these generously.

Be proud yourselves. You are extraordinary students, forged during extraordinary times. Never forget this.

PRESIDENT'S MESSAGE

Class of 2023, as you chase new inspirations, I have but one request: Please, think big.

You emerge from this innovative university as the next generation of leaders and changemakers. You get to shape our global society with your ideas and passions. You can redefine, reimagine and rebuild so much. Celebrate your success thus far and know that you will achieve much more still.

A joy of being your university's president is meeting with people around the globe, all of whom praise our collective efforts to advance truth and Reconciliation, understand and mitigate climate change, and bolster health as a human right. Manitobans have much humility, but I assure you, on the global stage, UM is a giant. And now you, as alumni, are our ambassadors. You now join our remarkable alumni community, full of big thinkers who let their wonderment fuel discoveries, create art that inspires change, and unleash the potential for good in communities everywhere. Continue this work.

You are the remarkable Class of 2023. You have already accomplished so much. The fact that you are celebrating your convocation today proves you are capable of achieving great things. While here, you have discovered your interests and passions and developed deep friendships that will last a lifetime. Continue to pursue what you love, and believe in where that can take you.

The University of Manitoba is proud of you. Congratulations, and here's to all your big ideas.

Michael Benarroch, PhD
President and Vice-Chancellor

ALUMNI ASSOCIATION WELCOME

Congratulations on your graduation! You now belong to the UM Alumni Association, a community of over 186,000 fellow UM graduates (alumni) living in 140 countries around the globe. As you celebrate at Convocation, know that we are all cheering for you from across the world and wish you every success.

As fellow UM graduates, we understand and applaud the hard work, dedication and drive that brought you here. It is our privilege to welcome you to the alumni community, to honour your outstanding achievements, and to support you in the years to come as you help shape Manitoba and the world. UM alumni are ambassadors, advocates and thought leaders, demonstrating that from here, you can go anywhere. Think of these graduates as your network for guidance, mentorship and career opportunities.

We encourage you to stay engaged with your alma mater by connecting with other alumni and joining us on campus or online for the number of events and activities available. There's something for everyone, like the annual Homecoming football game, Learning for Life webinars and lectures, UM Café—an online mentoring platform, or UM Career Lab—a program built for new grads like you that includes career development and financial literacy webinars. Take advantage of the many volunteer opportunities open to alumni within your faculty, on the Alumni Association Board of Directors or Alumni Council, mentor a student, or be an alumni ambassador at a UM event. Stay up to date through UM Today The Magazine and our monthly alumni e-news (make sure we have your current contact info!)

Today marks a major milestone for you - a time to reflect upon your University of Manitoba experience. Take pride in how it has shaped you and envision how it will bring you closer to accomplishing your goals. Today you begin your alumni journey and what we hope will be a life-long relationship with your university.

On behalf of the UM alumni community, congratulations on the tremendous achievement celebrated today. Here's to what comes next!

Visit us at umanitoba.ca/alumni to keep in touch and to learn more about the benefits of being UM alumni.

PROCEDURE FOR SELECTING HONORARY GRADUANDS

Nominations of distinguished persons for honorary degrees are accepted from both the university community and the general public. The Senate Committee on Honorary Degrees assesses the nominations using specific criteria which include distinguished achievement in scholarship, the arts or public service. Only those nominations which, in the opinion of the committee, meet the criteria for an honorary degree are forwarded to Senate, accompanied by comments from the committee, background information and letters of support. In order for Senate to recommend the conferring of an honorary degree, at least two-thirds of the votes must be in the affirmative.

HONORARY DEGREE

DONALD TRIGGS

BSA(Hons.)(Man.), MBA(W.Ont.)

TUESDAY, MAY 16

For decades, renowned Manitoba-born entrepreneur Donald Triggs has been making a profound impact on the Canadian economy.

With a passion to create a robust premium Canadian wine industry, Mr. Triggs' ambition, vision and fearlessness has made him one of the most influential figures in the Canadian wine industry today.

From his humble beginnings growing up on the family farm, Mr. Triggs' ambitions first began to take shape after he completed his honours degree in Agriculture at UM, receiving the Lieutenant-Governors Gold Medal in Agriculture and the Co-operative Promotion Board Gold Medal in Agricultural Economics upon graduation. He completed his MBA at Western and then began a career in marketing, working his way up to become president of beer-maker John Labatt Ltd.'s wine division.

In 1989, his ambitions grew further when the chance to buy the division arose and he saw an irresistible opportunity to create a global market for premium Canadian wine that did not yet exist. Mr. Triggs and his wife Elaine, against the advice of their bankers, made the risky decision to re-mortgage their house and pool their life savings with other partners to take the gamble and form their own company, Vincor.

Boasting 14 wineries and 2,250 employees, Vincor became the first Canadian wine company to succeed worldwide. In 1998, the couple purchased 100 acres of land along the Niagara Parkway and created Delaine Vineyard, a research vineyard that provided premium quality vinifera grapes for Vincor's Niagara Region wineries and the Jackson-Triggs Niagara Estate.

Co-founded with former colleague Allan Jackson in 1991, Jackson-Triggs Winery transformed Canada's small wine industry into an economic powerhouse. Together with a talented executive team, the pair acquired small wineries, planted better grapes, invested in technology, and turned the Jackson-Triggs label into Canada's bestselling premium-wine brand, winning Best Canadian Winery numerous times in Canadian and International wine competitions.

By 2003, their company was Canada's largest wine producer and the world's eighth largest. Until 2006, Mr. Triggs served as Chief Executive Officer and President of Jackson-Triggs' parent company, Vincor International Inc. His enthusiasm for ultra-premium winemaking led Elaine and him to launch Culmina Family Estate Winery in the Okanagan valley in 2007.

Now retired, Mr. Triggs is credited with making a major contribution towards transforming the quality and reputation of Canadian wines and establishing international markets to benefit all winemakers. He also guided the industry as chair of both the Canadian Vintners Association and the Ontario Wine Council. Mr. Triggs has received many accolades for his entrepreneurial spirit and community involvement where Mr. Triggs and Elaine actively supported the arts and education; Mr. Triggs was enthusiastic about the Triggs International Premium Vinifera Lecture Series which brings international experts on viticulture to share the world's leading research with Ontario and Okanagan growers every two years. Mr. Triggs' awards also included Marketer of the Year and Entrepreneur of the Year, and three honorary doctorate degrees. In 2006, Mr. Triggs received the Ten-Year Volunteer Service Award from the Government of Ontario and was honored with the Award of Distinction by the Canadian Vintners Association in 2016.

The University of Manitoba is proud to award a Doctor of Laws, honoris causa, to Donald Triggs in recognition of his transformative impact on the Canadian wine industry and his immense contributions to the Canadian economy.

HONORARY DEGREE

Dr. Thomas Quinn is a world-renowned scientist known for his groundbreaking HIV/AIDS research. He was one of the first researchers to identify the AIDS epidemic and its cause, the HIV virus.

As one of the top clinician-scientists in the world, he has been a leader in the world's response to the HIV/AIDS pandemic, working to decrease the rate of illness, the number of deaths, and reduced transmission rates with antiretroviral therapy, particularly in developing countries. In addition, through a clinical trial, his team reported the benefits of voluntary male circumcision to reduce HIV acquisition by half in Uganda.

Dr. Quinn is currently a professor of medicine and pathology at Johns Hopkins University and is the founding director of the university's Center for Global Health. He is also a NIH distinguished investigator and associate director of international research at the National Institute of Allergy and Infectious Diseases. Dr. Quinn earned his Master of Science from Notre Dame University in 1970 and his medical degree from Northwestern University in 1974.

He has published more than 800 scientific articles with more than 52,000 citations. Based on his body of scholarly work, Dr. Quinn was elected a member of the National Academy of Sciences. He is also a fellow of the American Association for Advancement of Science, the Infectious Diseases Society of America, and an elected member of the Association of American Physicians.

At the forefront of developing public health and research capacity in Africa, Dr. Quinn has mentored many clinicians and scientists. His leadership and commitment has contributed to the training of more than 13,000 health-care providers in Africa to combat the AIDS epidemic. He co-founded the Academic Alliance of AIDS Care and Prevention, and helped build the largest Infectious Diseases Institute in East Africa at Makerere University in Kampala, Uganda.

Dr. Quinn is on the editorial boards of several high-impact scholarly journals, including the *Journal of Clinical Investigation*, *AIDS*, *Lancet Global Health*, and the *Journal of Infectious Diseases*. He also serves as an advisor to the Pan American Health Organization (PAHO) and the World Health Organization (WHO) on sexually transmitted diseases and AIDS and chaired the Board on Global Health for the National Academy of Medicine.

Dr. Quinn is the recipient of multiple honours and distinctions over the course of his career, including the Centers for Disease Control and Prevention's Charles C. Shepard Science Award, an American College of Preventive Medicine Award, and the International Association of Providers of AIDS Care's Heroes in Medicine Award. He is also the recipient of the Distinguished Leader Award in Global Health from the Consortium of Universities for Global Health. In 2009, the University of Manitoba honoured him with a Distinguished Visiting Lectureship Award.

The University of Manitoba is proud to award a Doctor of Science, *honoris causa*, to Dr. Thomas Quinn for his commitment to understanding the complexities of the HIV virus and his pursuit of improving the health of people around the world.

HONORARY DEGREE

LARA RAE

TUESDAY, JUNE 6, 3 PM

A trailblazing force in Canada's comedy scene for more than three decades, Lara Rae is an orator and an entertainer, a teacher and an advocate.

Beloved for her ability to leverage her enthusiasm to bring about change in society, Ms. Rae is well-respected for her willingness to give of herself with openness, humour and grace, and invigorating others to do the same.

Born in Glasgow, Scotland, Ms. Rae began her career as a comedian in the early 1980s while still a student at Toronto's York University. Forming one-half of the successful comedy duo Al & George, Ms. Rae toured Canada, the US and the UK with their irreverent musical comedy shows before the pair broke up in 1990.

In the aftermath of the split, Ms. Rae wrote a play, *How Do You Know When You're Done?*, which explored a fictionalized comedy duo's breakup over creative differences. In the mid 1990s, Ms. Rae moved to Winnipeg, where she founded the Winnipeg Comedy Festival with Tom Anniko in 2002 and served as the festival's Artistic Director for 18 years.

A longtime contributor, writer, columnist and producer on CBC radio and television, Rae has written for programs such as *Blackfly*, *Big Sound*, *What a Week*, *Definitely Not the Opera* and *Monsoon House*. She shares a Prix Roma screenwriting prize and is a three-time Canadian Comedy Award nominee and a Gemini Award nominee from her work as one of the co-developers of the hit television series *Little Mosque on the Prairie* which ran for six seasons and aired across the globe. She is the former theatre and opera reviewer for CBC Manitoba and has been reviewing books for over fifteen years with the Winnipeg Free Press.

Her autobiographical play, *Dragonfly*, which explores her "gender odyssey" and her journey as a transgender woman, won the 2020 Chris Johnson Award for Best Play by a Manitoba playwright and was nominated as Book of the Year at the Manitoba Book Awards. She was the first transgender woman to guest host the CBC flagship news program *The Current*.

In addition to her cultural and creative works, Ms. Rae has been a prominent community activist for social justice. In 2019, she founded Pantry, a local food project that provides home-cooked meals, winter clothing and other essentials to her neighbours in Winnipeg's West Broadway area who are struggling with food and shelter insecurities. The success of Pantry is fueled by the same energy she has shared throughout her life to create community, embrace change, celebrate inclusion and inspire action, both in Manitoba and far beyond. Ms. Rae was named one of the Nellie McClung Foundation's 150 Trailblazers for this work, and for her longstanding contribution to Winnipeg's cultural communities.

Ms. Rae continues to write and perform comedy in Winnipeg and is an instructor at the University of Winnipeg's Department of Women and Gender Studies.

The University of Manitoba is proud to award a Doctor of Letters, honoris causa, to Lara Rae in recognition of her trailblazing impact on Canada's comedy scene, her dedication to the cultural and social life of Manitobans and her tireless advocacy for Winnipeg's 2SLGBTQ+ community.

HONORARY DEGREE

For more than three decades, Wayne Chiu has been dedicated to building communities.

An award-winning businessman, activist and philanthropist, Mr. Chiu grew up in a low-income neighborhood in Hong Kong before moving to Canada to pursue an engineering degree from UM.

Over his distinguished career, he has made an extraordinary impact on communities in Canada and around the world through his unwavering passion for social entrepreneurship and his belief that business and society can work together toward common goals.

Mr. Chiu sees social entrepreneurship as an intersection of three overarching themes and actions that have resonated throughout his career: corporate social responsibility; philanthropic work; and being in a business that provides something meaningful to people.

As owner of Calgary-based Trico Group, which he founded in 1992, he has erected tens of thousands of single and multi-family homes in Alberta—including affordable units—and has partnered to provide subsidies to first-time homeowners. In 2015, Trico Homes worked to restore 159 Chiniki First Nation homes that had been destroyed by Alberta floods. Today Trico Homes continues to build homes for the Nation.

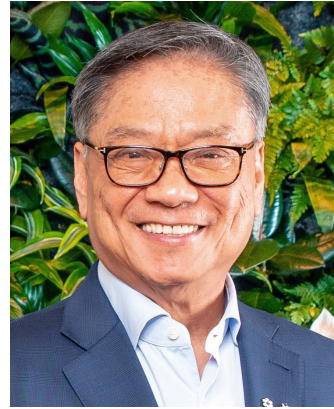

Over the years, Mr. Chiu has become a beloved benefactor in his adopted city of Calgary, supporting arts and culture, health and wellness, education, entrepreneurship, and social causes. Trico has also been named one of Canada's top 50 best managed companies.

In 2004, Trico was on a corporate retreat in Thailand when a catastrophic tsunami hit. As he clung to a tree watching misery below him, Mr. Chiu had an epiphany that led to him and his wife launching the Trico Charitable Foundation in 2008 that focuses on social entrepreneurship to use business to solve problems in society.

Mr. Chiu has also made an extraordinary impact through his support of the Women in Need Society (WINS). Providing promotion and financial support, he has helped the society to expand its efforts, growing communities and connecting women and their families with resources to thrive.

He has earned many accolades in honour of his business achievements and civic service. He is a Member of the Order of Canada and an appointee of the Alberta Order of Excellence and has been awarded the Queen Elizabeth II Diamond and Platinum Jubilee Medals. He has also been graced with the Alberta Centennial Award. Other awards of note are the Ernst & Young Entrepreneur of Year Award, the Immigrant of Distinction Award, and the Calgary Citizenship Award. Most recently, Mr. Chiu received the award for Canada's Most Admired CEO, the Alberta Business Hall of Fame Lifetime Achievement Award, and the Distinguished Business Leader Award from the Haskayne School of Business at the University of Calgary.

The University of Manitoba is proud to award a Doctor of Laws, honoris causa, to Wayne Chiu in recognition of his life-changing impact as a builder, activist and philanthropist and his dedication to growing and supporting communities in Western Canada.

HONORARY DEGREE

JENNIFER GUNTER

MD(Man.)

WEDNESDAY, JUNE 7, 3 PM

For more than 27 years, Dr. Jennifer Gunter has made outstanding contributions to medicine, accessibility, and our understanding of reproductive health, sexual health, and menopause.

Once referred to as “the world’s most famous gynecologist,” the physician, best-selling author and women’s health expert has long been an unapologetic advocate for patient empowerment and accessible information. Her approach as an OB/GYN and a pain medicine physician is centered on evidence-based medicine integrated with a focus on empathy and the patient’s experience.

After graduating from the University of Manitoba’s Max Rady College of Medicine, Dr. Gunter completed her OB/GYN training at the University of Western Ontario and a fellowship on infectious diseases at the University of Kansas.

The traumatic loss of one of her sons in a premature triplet pregnancy motivated her to write *The Premie Primer: A Complete Guide for Parents of Premature Babies — from Birth through the Toddler Years and Beyond*. The book addresses the lack of publicly available, medically sound information about the specific needs of premature babies.

Since then, Dr. Gunter has authored two more books on female health, including the #1 national bestseller *The Vagina Bible*, which she wrote as a reaction to the large amounts of false and dangerous information about female health on the internet. She has written for *The New York Times*, *Glamour*, *The New Republic*, and many other publications, and has a blog called *The Vagenda*. Her prominent social media presence has led to the nickname “Twitter’s Resident OB/GYN” and she often references her Winnipeg roots and credits her prairie upbringing for her confidence and direct approach.

Since 2006, Dr. Gunter has been managing a health clinic for women in the Chronic Pelvic Pain & Vulvo-Vaginal Disorders division at The Permanente Medical Group of Kaiser Permanente in Northern California.

She is the host of a 10-part docuseries called *Jensplaining* on CBC Gem and a TED Audio Collective podcast. She is a passionate champion for women’s health and has used her voice to debunk medical myths, advocate for a “better medical internet” and call out exploitative pseudoscience.

Her goal is to have more medical experts involved in disseminating medical information in ways that are accessible to the public and to correct the misinformation and disinformation available online, especially as it relates to women’s physical, reproductive and sexual health.

The University of Manitoba is proud to award a Doctor of Laws, honoris causa, to Dr. Jennifer Gunter in recognition of her outstanding contributions to the field of gynecology and her lifelong advocacy for accessibility and women’s health.

HONORARY DEGREE

Since beginning her career as a radio broadcaster with the CBC Northern Service (now CBC North), Her Excellency the Right Honourable Mary Simon has made significant contributions to Canadian broadcasting, public service and diplomacy.

A leader, constitutional negotiator and diplomat of Inuit ancestry, Ms. Simon was appointed as Canada's 30th Governor General in 2021, becoming the country's first Indigenous Governor General.

Ms. Simon has gained national and international recognition for her work on Arctic and Indigenous issues, and for her efforts in advocating for Inuit rights, youth, education and culture.

Ms. Simon's lifelong dedication to public service began when she became involved with Northern Quebec Inuit Association (now Makivik Corporation) and Inuit Tapirit Kanatami, Canada's national Inuit organization, working as one of the senior Inuit negotiators during the repatriation of the Canadian Constitution in 1982, as well as the 1992 Charlottetown Accord negotiations.

As vice-president of Makivik and, later, as its president, she was responsible for the implementation of the first land claims agreement in Canada, the James Bay and Northern Quebec Agreement, as well as the protection and promotion of Inuit rights. Ms. Simon has also served as a member of the Nunavut Implementation Commission and as co-director (Policy) and secretary to the Royal Commission on Aboriginal Peoples.

She took on a variety of roles for the Inuit Circumpolar Council, first as executive council member and then as president for six years. During her term as president, she worked with the Canadian and Russian governments to bring the Inuit Chukotka (Siberia) into the Inuit Circumpolar Council.

In 1994, during her time as a diplomat, she was appointed by Prime Minister Jean Chrétien to be Canada's ambassador for Circumpolar Affairs. During her tenure in this role, she took the lead in negotiating the creation of an eight-country council known today as the Arctic Council, and held the position of Canadian ambassador to Denmark.

In 2008, as president of Inuit Tapirit Kanatami and on behalf of Inuit, she stood in the House of Commons and delivered a response to the Government's formal apology on residential schools. She is the founder of the Arctic Children and Youth Foundation and, until 2014, she was the chairperson of the National Committee on Inuit Education.

Over the course of her distinguished career, Ms. Simon has received many awards and distinctions. She is an Officer of the Ordre national du Québec, as well as a recipient of the Governor General's Northern Medal, the Gold Order of Greenland, the National Aboriginal Achievement Award, the Gold Medal of the Canadian Geographical Society, and the Symons Medal.

The University of Manitoba is proud to award a Doctor of Laws, honoris causa, to Mary (Ningiukudluk) Simon in recognition of her immense impact on Indigenous communities in Canada, and her lifelong dedication to public service and diplomacy.

PETER D. CURRY CHANCELLOR'S AWARD

RENNIE ZEGALSKI

BComm(Hons.)(Man.)

THURSDAY, JUNE 8, 9:30 AM

As a past UMSU Representative, Chairperson and Board Member, Rennie Zegalski has made outstanding contributions to the University of Manitoba and the Asper School of Business.

Before graduating with a BComm(Hons.) from the I. H. Asper School of Business in 1995, Mr. Zegalski was an active participant in student activities and served as UMSU Representative for Asper. He proudly assisted with UM's Shinerama campaign, a fundraiser for the Canadian Cystic Fibrosis Foundation of Canada, first taking on the role of chair in 1992 and continuing to be involved until he graduated.

As a graduate, he went on to volunteer with Shinerama at the national level and was a national team leader, advising and consulting on 10 campus campaigns. He served as Chairperson of the Young Associates of the I. H. Asper School of Business, and also joined the UM Alumni Association Board of Directors, serving the last two years as Alumni Association President.

Serving nine years as an elected member to the University of Manitoba Board of Governors, he chaired the Finance and Administration committee for four years and served as Chair of the Board in 2017, his last year on the board. During his time on the board, he was active in the development of IG Field, ARTlab, the Active Living Centre and the Southwood Lands.

Mr. Zegalski is currently a Principal with Capital Commercial Real Estate Services Inc., a leading commercial real estate brokerage in Manitoba, as well as a partner in Capital Property Management Inc., one of the largest commercial and residential property management companies in Winnipeg. He continues his involvement with UM as an active member of the Associates of the IH Asper School of Business.

The University of Manitoba is proud to honour Rennie Zegalski with the Peter D. Curry Chancellor's Award for outstanding contributions to the University.

DISTINGUISHED PROFESSOR AWARD

For 55 years, Dr. Michael Eskin has been a vital member of the Department of Food and Human Nutritional Sciences at the University of Manitoba.

A pioneering Food Chemist, Dr. Eskin is a global leader in canola research and has played a crucial role in the development of canola oil. His identification of the chemical, physical and performance properties of canola oil helped lay the foundation for its development as a marketable product. Today, it represents more than half of all vegetable oils consumed in Canada and ranks the third major edible oil globally.

While he has worked successfully in several different areas, Dr. Eskin's research on canola remains his primary focus. He has published over 150 peer-reviewed papers, and with 17 books and 65 chapters to his credit, he is one of world's leading food science writers. His first book, *Biochemistry of Foods*, published by Academic Press over fifty years ago, is in its 3rd edition and is used in universities around the world. It has been translated into Japanese, German, Malay and Portuguese.

In recognition of his important scientific contributions, Dr. Eskin was awarded the Order of Canada in 2016, as well as the Order of Manitoba in 2021. In 2022, he became the first Canadian recipient of the Institute of Food Technologists Lifetime Achievement Award – joining a highly distinguished group of scientists from around the world.

For his ground-breaking research in fats, oils, and lipid chemistry he was honoured with the American Oil Chemists Society's (AOCS) Supelco Research Award, considered the world prize in lipid research. This year Dr. Eskin received the A.R. Baldwin Distinguished Service Award from the society. He is highly respected as a beloved Canadian scientist who is a long-time mentor, inspiration and friend to colleagues and students in the organization. In recognition of Dr. Eskin's remarkable accomplishments, he was also recently elected by his peers as a Fellow of the Royal Society of Canada. He is also known for his lipid rap videos on YouTube.

The University of Manitoba is proud to award the title of Distinguished Professor on Dr. Michael Eskin for demonstrating outstanding distinction in research, scholarship, creative endeavours, professional service and teaching.

DR. AND MRS. H. H. SAUNDERSON AWARD FOR EXCELLENCE IN TEACHING

BRUNO DYCK

BComm(Hons.)(Man.), PhD(Alta.)

THURSDAY, JUNE 8, 9:30 AM

Dr. Bruno Dyck's leadership course begins with students creating the syllabus. From the start, they are engaged, as is he, always. In 2020, when COVID-19 made teachers adapt styles and course materials seemingly overnight, he never missed a beat and still flourished with 90% of students rating him as "very good" or "excellent." As one student wrote: "Honestly the course exceeded all expectations and was my favourite one of my whole degree."

Dr. Dyck has taught in the Asper School of Business since 1990 and has been a two-time recipient of the Asper School's Associates Achievement Award for Teaching, as well as UM's student-chosen Certificate of Teaching Excellence and the Significant Contribution to Excellence in Teaching award.

In the 2019-2020 school year, Dr. Dyck received two international awards: the Expanded Reason Award for Teaching from the Francisco de Vitoria University, which recognized his innovations in bringing sustainability-related issues to the classroom; and the 2019 Book of the Year Award from the International Humanistic Management Association, for the textbook *Management: Financial, Social, and Ecological Well-Being*, for which he was the lead author.

Dr. Dyck's passion for engaging students has led him to become a leader in developing research and teaching methods on management education. He has co-authored multiple ground-breaking textbooks which are celebrated globally for providing various approaches to engaging with the material. Recently, he facilitated the development of an innovative, well-regarded video series called *Overdue Diligence*, designed to be used in the classroom by instructors wanting to incorporate Indigenous content into the course.

In his scholarly research as the Norman Frohlich Professorship in Business Sustainability, Dr. Dyck has contributed to leading journals of business ethics and management education. His research shows that students who learn multiple approaches to management become better critical and ethical thinkers, and place greater value on social and ecological well-being. And that, both in his writing and teaching, is his goal: "to help students understand their values and what sorts of manager they want to become, so that they can have a positive impact on people, organizations and entire communities."

One student said that Dr. Dyck's course provided "a deeper understanding of myself and the world around me." Another said "He truly was the best professor I ever had. He wants the best in all of his students and believes anyone can change the world."

In addition to co-authoring the textbook used in the management course, Dr. Dyck wrote the course content for several other courses in Asper's undergraduate and MBA programs and is taking a leadership role in developing its new mandatory course in sustainable business. He has also developed numerous innovative experiential-learning assignments now copied around the globe.

As students have noted, he walks his talk too. He is passionate about his work and creating a more sustainable world and way of thinking, and in 2023 he won the Faculty Sustainability Award from UM's Office of Sustainability.

The University of Manitoba is proud to recognize Dr. Bruno Dyck with the Dr. and Mrs. H.H. Saunderson Award for Excellence in Teaching.

It is requested that, wherever possible, the audience remain in their places throughout the Convocation and until the academic procession has retired.

The names of graduates in this document are accurate at the time of publishing and may be subject to change.

ACADEMIC DRESS

Guests at Convocation will readily conclude that the academic dress worn by graduands and members of the academic procession is both colourful and varied. The significance of academic dress may not be so apparent.

Academic dress includes a gown, hood (worn over the shoulders), and a cap or mortarboard. All universities have distinctive academic dress for each degree offered. This explains the variety of academic dress worn by members of the academic procession who have graduated from many different institutions.

The University of Manitoba has patterned its academic dress after the British tradition using the Oxford gown as the model. The Oxford attire is a modified form of the garments worn by its members in medieval times, sometimes attributed to the need for warmth in their damp halls of learning. There are three types of gowns at the University of Manitoba: the Bachelor's and Master's gowns are black; the Doctor of Philosophy gown is black with red velvet bars on sleeves and front panels; and the Honorary Doctor's gown is scarlet. Mortarboards are black with a black tassel and are worn by all graduands except for honorary graduands; they wear round brimmed caps of black velvet with a gold tassel.

It is the hood which signifies the degree to be presented to the graduand. The hoods for Bachelor's degrees all have the common characteristics of black material edged with white borg material. Hoods for each of the Bachelor's degrees at the University have a distinctive lining ranging from no lining (black) for Arts, to green for Agriculture, to gold for Science. Similarly hoods for the various Master's degrees have a distinctive lining but can be differentiated from Bachelor's hoods by the absence of a borg edging. Hoods for Honorary Doctor's degrees are scarlet with different linings: white indicates an Honorary Doctor of Laws; yellow, an Honorary Doctor of Science; and slate blue, an Honorary Doctor of Letters. See the following page for a complete listing of the colours of all hood linings.

Senate must approve any changes in academic dress. The Senate Committee on Academic Dress, which includes the Director of the School of Art and the Head of the Department of Interior Design, makes recommendations to Senate on the academic dress of graduands, the Chancellor, the Vice-Chancellor, the Marshalls, and other officers of Convocation.

ORDER OF PROCEEDINGS

Wednesday, June 7th, 2023 at 9:30 a.m.

PROCESSIONAL

Entrance of members of the faculties/schools of the University and Colleges, members of the University Senate, the Chair and members of the Board of Governors, the Honorary Graduand, the President, the Chancellor.

Entrance of the graduating students.

TRADITIONAL HONOUR SONG

O CANADA

RESUMPTION OF CONVOCATION

Michael Benarroch, Ph.D.

President and Vice-Chancellor of The University of Manitoba

PRESENTATION OF HONORARY DEGREE RECIPIENT

The President

Citation read by

Marcia Friesen, B.Sc.(A.E.), M.Ed, Ph.D.(Man.),

P.Eng., F.E.C.

Dean, Price Faculty of Engineering

CONFERRING OF HONORARY DEGREE

Anne Mahon, B.H.Ecol.(Man.),
Chancellor of The University of Manitoba,
upon Wayne Chiu, the degree of Doctor of Laws

CONVOCATION ADDRESS

Wayne Chiu, CM, AOE, B.Sc.(M.E.)(Man.), ICD.D,

**ANNOUNCEMENT OF THE AWARD OF
MEDALS, FELLOWSHIPS, AND PRIZES**

**CHANCELLOR'S ADDRESS TO THE GRADUANDS
CONFERRING OF DEGREES**

The Chancellor

GREETINGS FROM THE ALUMNI ASSOCIATION

Tracy Bowman, B.A.(Man.), M.A.(York)
Executive Director, Alumni Relations

RECESSION OF CONVOCATION

DEGREES IN COURSE

Doctor of Philosophy: Engineering

Bajracharya, Ajay Ratna

Major: Civil Engineering

Thesis: Process-based calibration of HYPE model for climate change impact assessment of Nelson Churchill River Basin

Advisor: Stadnyk, Tricia Anne

Co-Advisor: Asadzadeh, Masoud

Eissa, Abdalla Mohamed

Major: Civil Engineering

Thesis: Stabilizing soft clay soil using nano-modified cementitious binders, basalt fiber pellets, and a novel geosynthetic composite

Advisor: Bassuoni, Mohamed Tamer

Co-Advisor: Alfaro, Marolo

Elhadary, Riham Refaat

Major: Civil Engineering

Thesis: Characteristics of nano-modified cementitious composites incorporating basalt fiber pellets and polyvinyl alcohol fibers and their suitability for shear key joints

Advisor: Bassuoni, Mohamed Tamer

Holmes, Tegan Linnea *

Major: Civil Engineering

Thesis: Utility of stable isotope tracer data in large scale hydrologic modeling

Advisor: Stadnyk, Tricia Anne

Co-Advisor: Asadzadeh, Masoud

Khan, Musharraf Ahmad *

Major: Civil Engineering

Thesis: Ranking of hazardous materials facility siting through routing evaluation considering transportation preferences and risk

Advisor: Mehran, Babak

Ofeoritse, Ayaobu Cherish

Major: Civil Engineering

Thesis: Recovery of phosphorus from chemical sludge

Advisor: Yuan, Qiuyan

Rillagodage, Navoda Yasanthi

Major: Civil Engineering

Thesis: A framework for reliability-based weather-responsive speed management for rural highways located in extremely cold regions

Advisor: Mehran, Babak

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Engineering (continued)

Babaei, Abolfazl *

Major: Electrical and Computer Engineering
Thesis: Improving power system voltage regulation: a capacitive ladder-based power electronic AC voltage regulator
Advisor: Gole, Aniruddha M

Kulasza, Matthew Alexander

Major: Electrical and Computer Engineering
Thesis: Extending the frequency bandwidth of transient stability simulation using dynamic phasors
Advisor: Annakkage, Udaya Deepa
Co-Advisor: Karawita, Karawita Widanelage D C

Sinkar, Ajinkya Dilip

Major: Electrical and Computer Engineering
Thesis: Methods for acceleration, and stability assessment of single-rate and multi-rate electromagnetic transient simulations
Advisor: Gole, Aniruddha M

Thacker, Mayank Bhupendra *

Major: Electrical and Computer Engineering
Thesis: MEMS ultrasonic sensors for anemometry application on MARS
Advisor: Buchanan, Douglas Andrew
Co-Advisor: Emadi, Tahereh Arezoo

Liu, Yushun *

Major: Mechanical Engineering
Thesis: The design and deformation mechanism of defect-based micro structure within magnesium
Advisor: Zhu, Guozhen

Verwey, Cameron Mark *

Major: Mechanical Engineering
Thesis: Toward a comprehensive understanding of turbulent droplet vaporization
Advisor: Birouk, Madjid

Master of City Planning

Agominab, Romeo Ankisiwai

Major: City Planning

Antonyshyn, Julia Crystal

Major: City Planning

Bajelan, Hadiseh

Major: City Planning

* as at February 2023

DEGREES IN COURSE

Master of City Planning (continued)

Keogh, Hayden Michael Wyn

Major: City Planning

Klassen, Jonathan

Major: City Planning

Maddock, Colt Dalton

Major: City Planning

McKinnon, Anna Mae

Major: City Planning

McLaren, Abigail Grace

Major: City Planning

Mitchell, Sahla Tekla

Major: City Planning

Patton, Hannah Rose-Celine

Major: City Planning

Paull, Joshua Frank

Major: City Planning

Ratcliffe, Gabriela

Major: City Planning

Master of Interior Design

Aiello, Kara Marie

Major: Interior Design

Thesis: Strengthening human-animal relationships using interior design: a holistic approach to animal-care centres

Amoako, Eugenia *

(St. John's College)

Major: Interior Design

Practicum: The Connect: designing a Ghanaian-Canadian community centre

Advisor: Beaverford, Kelley

Binnun, Oren Chaim

Major: Interior Design

Practicum: Architectural symbols of hate: redemption through adaptive reuse

* as at February 2023

DEGREES IN COURSE

Master of Interior Design (continued)

Littleford, Haley Victoria

Major: Interior Design

Practicum: A new reality: supporting employee well-being within a hybrid workplace model

Advisor: Karpan, Cynthia

Vinsky, Ashley Ann *

Major: Interior Design

Practicum: Reconnecting community: combating loneliness through coliving, place attachment, and adaptive reuse in Winnipeg's Exchange District

Advisor: Beaverford, Kelley

Zamanikharaghani, Ali

Major: Interior Design

Practicum: Pardis Centre, a wellness centre for people living with Multiple Sclerosis (MS) and their companions.

Advisor: Close, Susan Michelle

Master of Landscape Architecture

Dafoe, Madeleine Chloe *

Major: Landscape Architecture

Practicum: Ghost creeks: reconnecting with the lost waters of Winnipeg

Advisor: Straub, Dietmar Konrad

Laya, Ian Marco *

Major: Landscape Architecture

Practicum: Life begins in the garden: open spaces and livable environments of the Spence Neighbourhood in Winnipeg

Advisor: Straub, Dietmar Konrad

Ouellette, Elise Natalie *

Major: Landscape Architecture

Practicum: Designing dignified living conditions for Canada's migrant agricultural workers

Advisor: Eaton, Marcella

Ratte, Naomi Crystal

Major: Landscape Architecture

Practicum: WENDAAJI'OWIN: A land-based approach seeking to honour that which sustains life

Advisor: Straub, Dietmar Konrad

* as at February 2023

DEGREES IN COURSE

Master of Landscape Architecture (continued)

Valdez, Carl Irvin Fronteras *

Major: Landscape Architecture

Practicum: Probing the tides: exploring the narratives of a shifting coastline

Advisor: Wilson Baptist, Karen Elizabeth

Master of Engineering

Ajagbe, Aduragbemi David *

Major: Biosystems Engineering

Advisor: Chen, Ying

Budhwan, Amit

Major: Biosystems Engineering

Advisor: Jayas, Digvir

Das, Nitta Gopal

Major: Biosystems Engineering

Haque, Afsana *

Major: Biosystems Engineering

Joy, Dibbohit Datta

Major: Biosystems Engineering

Kaur, Sukhanjot *

Major: Biosystems Engineering

Mattu, Hirdya Ankur

Major: Biosystems Engineering

Mukherjee, Sunrita *

Major: Biosystems Engineering

Advisor: Paliwal, Jitendra

Peiris, Telge Chiran Indula *

Major: Civil Engineering

Advisor: Cha, Young Jin

Pranta, Rudra Karmakar

Major: Biosystems Engineering

Serajzadeh, Seyed Adel *

Major: Civil Engineering

Advisor: Asadzadeh, Masoud

* as at February 2023

DEGREES IN COURSE

Master of Engineering (continued)

Shojaei, Maryam *

Major: Electrical and Computer Engineering

Advisor: Yahampath, Pradeepa

Shorna, Sabrina Iqbal

Major: Biosystems Engineering

Advisor: Levin, David Bernard

Simbanegavi, Tapiwa Wallace

Major: Biosystems Engineering

Thiesen, Dustin Andrew

Major: Biosystems Engineering

Master of Science: Engineering

Rabbi, Mir Sohayeb *

Major: Biomedical Engineering

Thesis: Behavioural assessment of a neurexin knockout mouse model

Advisor: Siddiqui, Tabrez Jamal

Co-Advisor: Ko, Ji Hyun

Sharma, Kushagra *

Major: Biomedical Engineering

Blight, Brodie *

Major: Civil Engineering

Thesis: An experimental investigation of glacial till erodibility and the impacts of slaking

Advisor: Clark, Shawn

Duke, Jennifer Lynn

Major: Civil Engineering

Thesis: An integrated modelling approach for estimating grain truck activity in the Canadian Prairie Region

Advisor: Regehr, Jonathan David

Farokhzad, Pouya

Major: Civil Engineering

Thesis: A novel framework for incorporating hydrologic signatures for model calibration

Advisor: Asadzadeh, Masoud

* as at February 2023

DEGREES IN COURSE

Master of Science: Engineering (continued)

Hay, Brent Stephen *

Major: Civil Engineering

Thesis: Evaluating axial compressive capacity of helical piles installed in clay tills

Advisor: Alfaro, Marolo

Kaluzny, Samuel William *

Major: Civil Engineering

Thesis: The effects of culverts on embankment performance in cold regions

Advisor: Alfaro, Marolo

King, Lucas Owen

Major: Civil Engineering

Thesis: SWAT modeling of best management practices in the Red River Basin: implications to improved water quality and shared governance

Advisor: Asadzadeh, Masoud

Kriegl, Adam Joseph Torchia

Major: Civil Engineering

Thesis: Performance of lift joints subjected to thermal fatigue cycles

Advisor: Svecova, Dagmar

Mirzaei, Maedeh *

Major: Civil Engineering

Thesis: Enhancing bridge weigh-in-motion system by accurate observation of the velocity and axle spacings of moving truck using a geophone sensor

Advisor: Mufti, Aftab A

Neirinck, Timothy *

Major: Civil Engineering

Thesis: Long term behaviour of UHPC shear key connections in adjacent box girder bridges under thermal loading

Advisor: Svecova, Dagmar

Umirov, Nursultan

Major: Civil Engineering

Thesis: Water resources management modelling for analyzing flood mitigation projects along the Elgin Creek

Advisor: Asadzadeh, Masoud

Co-Advisor: Mehran, Babak

* as at February 2023

DEGREES IN COURSE

Master of Science: Engineering (continued)

Wang, Yao *

Major: Civil Engineering

Thesis: Evaluation of novel mycelium-based bio-foams using unexplored mycelium species and agricultural waste as packaging materials

Advisor: Yuan, Qiuyan

Youssef, Omar Mohamed Mahmoud Hosny Abdelrahim

Major: Civil Engineering

Thesis: Nano-modified slag-based cementitious composites reinforced with multi-scale fiber systems

Advisor: Bassuoni, Mohamed Tamer

Alavi Eshkaftaki, Seyed Reza *

Major: Electrical and Computer Engineering

Thesis: A single-phase half-bridge current source inverter (CSI) topology with reduced power semiconductor count for grid-connected applications

Advisor: Ho, Ngai Man

Attanayaka, Harindya Shehani

Major: Electrical and Computer Engineering

Thesis: Battery energy storage systems for primary frequency regulation in power systems

Advisor: Filizadeh, Shaahin

Chowdhury, Md Jawwad *

Major: Electrical and Computer Engineering

Thesis: Lens-type redirective reconfigurable intelligent surfaces for multi-user MIMO communications

Advisor: Bellili, Faouzi

Co-Advisor: Mezghani, Amine

Fang, Yin *

Major: Electrical and Computer Engineering

Thesis: Design and implementation of a thermal hardware-in-the-loop (THIL) platform for evaluating physical cooling systems in real-time simulation

Advisor: Ho, Ngai Man

Gao, Tiancheng *

Major: Electrical and Computer Engineering

Thesis: Kalman filtering beyond Gaussian innovation processes

Advisor: Bellili, Faouzi

* as at February 2023

DEGREES IN COURSE

Master of Science: Engineering (continued)

Habiba, Ummy *

Major: Electrical and Computer Engineering
Thesis: Repeated auction mechanisms for multi-access edge computing
Advisor: Hossain, Abu Zafar M E

Hill, Brandon James *

Major: Electrical and Computer Engineering
Thesis: Investigation of a flexible printed circuit board MEMS electrostatic field sensor
Advisor: Shafai, Cyrus

Idoko, Dawn Ochanya *

Major: Electrical and Computer Engineering
Thesis: Signal parameter estimation of damped sinusoidal waveforms using deep learning
Advisor: Kordi, Behzad
Co-Advisor: Bridges, Gregory Ernest John

Isik, Sadna

Major: Electrical and Computer Engineering
Thesis: Analysis of an enclosure for a MEMS DC electric field sensor
Advisor: Shafai, Cyrus

Kozar, Andrew David Joseph

Major: Electrical and Computer Engineering
Thesis: Data collection using deep reinforcement learning for serious games
Advisor: McLeod, Robert Donald
Co-Advisor: Friesen, Marcia Ruthild

Kuranage, Dilsha Nirmani Karunathilaka

Major: Electrical and Computer Engineering
Thesis: Hybrid and parallel-computing methods for optimization of power systems with electromagnetic transient
Advisor: Filizadeh, Shaahin

Qiu, Tianke *

Major: Electrical and Computer Engineering
Thesis: Inverse design of Huygens' metasurfaces for 2D and 3D power pattern synthesis
Advisor: Mojabi, Puyan

* as at February 2023

DEGREES IN COURSE

Master of Science: Engineering (continued)

Rahman, Mohaimen *

Major: Electrical and Computer Engineering

Thesis: Classifying SARS-CoV-2 and common respiratory viruses from genome assemblies

Advisor: Ferens, Kenneth F

Vera Rivera, Angelo Ivan *

Major: Electrical and Computer Engineering

Thesis: Design and implementation of a blockchain-based task sharing service for edge computing servers using the hyperledger fabric platform

Advisor: Hossain, Abu Zafar M E

Barari, Ali *

Major: Mechanical Engineering

Thesis: Reconfigurable and empirical spacecraft emulation testbed (RESET)

Advisor: Ferguson, Philip Andrew

Chalmers, Heath Alexander (St. Paul's College)

Major: Mechanical Engineering

Thesis: The effects of gap ratio and upstream wall-roughness on the spatio-temporal turbulent flow dynamics surrounding a square cylinder

Advisor: Tachie, Mark Francis

Domingo, Patrick Justin

Major: Mechanical Engineering

Thesis: Numerical study of projectile shape effect on the bumper performance under hypervelocity impact

Advisor: Telichev, Igor

Fase, Paul Oluwasegun *

Major: Mechanical Engineering

Thesis: Development of a finite element model for calculating concentration dependent interdiffusion coefficient

Advisor: Ojo, Olanrewaju Akanbi

Guan, Tian

Major: Mechanical Engineering

Thesis: Time-varying concentration-dependent interdiffusion coefficient in the Cu-Ni system

Advisor: Ojo, Olanrewaju Akanbi

* as at February 2023

DEGREES IN COURSE

Master of Science: Engineering (continued)

Howlader, Tanvir

Major: Mechanical Engineering

Thesis: Development of a corrugated core sandwich panel with enhanced MMOD shielding capability

Advisor: Telichev, Igor

Najafizadeh Sari, Naeimeh *

Major: Mechanical Engineering

Thesis: Attitude control of an underactuated LEO CubeSat in presence of uncertainties with state estimation

Advisor: Ferguson, Philip Andrew

Olynyk, Michael Alexander *

Major: Mechanical Engineering

Thesis: Haptically-enabled devices for neurological rehabilitation of hand and wrist disabilities

Advisor: Sepehri, Nariman

Patel, Mitesh Sunilkumar

Major: Mechanical Engineering

Thesis: Payload position tracking and fractional control evaluation for a drone-based ground penetrating radar system

Advisor: Ferguson, Philip Andrew

Sakib, A H M Nazmush *

Major: Mechanical Engineering

Thesis: A study of the capability of flamelet-based combustion model for the gas-phase combustion of a grate-firing biomass furnace

Advisor: Birouk, Madjid

Salehi Tabar, Meshkat *

Major: Mechanical Engineering

Thesis: Combined finite element and deep learning techniques for rapid prediction of workpiece structural dynamics during turning

Advisor: Khoshdarregi, Matt

Shaabani, Bahador

Major: Mechanical Engineering

Thesis: Using numerical analysis to design and optimize river hydrokinetic turbine to address seasonal velocity variations

Advisor: Chatoorgoon, Vijay

Co-Advisor: Bibeau, Eric L

* as at February 2023

DEGREES IN COURSE

Master of Science: Engineering (continued)

Shirinzad, Ali *

Major: Mechanical Engineering

Thesis: Experimental study of turbulent flows over sharp-crested
pillways with a circular downstream curvature profile for
downstream fish migration

Advisor: Tachie, Mark Francis

Ward, Jesse Tanner

Major: Mechanical Engineering

Thesis: Radiation effects screening campaign planning algorithm and
test platform for modern commercial off the shelf electronics

Advisor: Ferguson, Philip Andrew

Zhang, Zuoyong *

Major: Mechanical Engineering

Thesis: Alloying-induced softening in metal nanowires studied by
atomistic simulations

Advisor: Deng, Chuang

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Environment, Earth, & Resources

Beingessner, Naomi Ellen *

Major: Geography

Thesis: Changing relations of agricultural land tenure and access in the Canadian Prairies

Advisor: Desmarais, Annette Aurelie

Co-Advisor: Peyton, Jonathan

Day, Maxwell Christopher *

Major: Geological Sciences

Thesis: Topology and geometry of chain, ribbon and tube silicates: generation and analysis of infinite one-dimensional arrangements of (TO₄)_n- tetrahedra

Advisor: Hawthorne, Frank Christopher

Co-Advisor: Sokolova, Elena

De Ruyck, Christopher Charles

Major: Natural Resources and Environmental Management Thesis:

The life-cycle, diet, and seasonal movement patterns of land birds on the island of Grenada, and the contribution of diverse small-scale farming to maintaining bird diversity abundance on small tropical islands

Advisor: Koper, Nicola

Landivar, Natalia *

Major: Natural Resources and Environmental Management

Thesis: Agrarian extractivism and land struggles in Guayas province, Ecuador: a feminist political ecology analysis

Advisor: Davidson-Hunt, Iain Johnson

Co-Advisor: Desmarais, Annette Aurelie

Lira Ledesma, María Guadalupe *

Major: Natural Resources and Environmental Management

Thesis: Indigenous communities and global markets: the commoditization of artisanal mezcal from Oaxaca, Mexico

Advisor: Davidson-Hunt, Iain Johnson

Co-Advisor: Robson, James Patrick

Doctor of Philosophy: Medicine

Gelley, Geoffrey *

Major: Applied Health Sciences

Thesis: Motor performance of participants with chronic neck pain and asymptomatic participants pre- and post-spinal manipulation using separate eye and head movement Fitts' tasks

Advisor: Passmore, Steven Robert

Co-Advisor: MacNeil, Brian Joseph

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Medicine (continued)

McDonald, Neil Edward

Major: Applied Health Sciences

Thesis: The treatment of potential spine injuries by emergency personnel in the prehospital setting

Advisor: Kriellaars, Dean Johannes

Co-Advisor: Pryce, Robert

Liu, Qian

Major: Biochem & Medical Genetics IIS

Thesis: Machine learning-driven integration of multimodal data for deciphering breast cancer heterogeneity

Advisor: Hu, Pingzhao

Ayilara, Olawale Fatai *

Major: Community Health Sciences

Thesis: Analysis of multivariate responses in patient reported outcome measures: missing data and auxiliary variables

Advisor: Lix, Lisa Marie

Co-Advisor: Jafari Jozani, Mohammad

Richard, Zipporah Bosibori

Major: Medical Microbiology

Thesis: Toll-like receptor (TLR)7 and TLR8 stimulation of mucosal-associated invariant T cells and gamma delta T cells: a role in HIV susceptibility

Advisor: Ball, Terry Blake

Garnett, Lauren Elizabeth Aileen

Major: Medical Microbiology and Infectious Diseases

Thesis: Adipose tissue is a target for Ebola virus, having systemic implications in metabolism and stress during acute and prolonged infection

Advisor: Strong, James Eric

Morriseau, Taylor Simone *

Major: Pharmacology & Therapeutics

Thesis: Investigating the role of the HNF-1aG319S variant in experimental models reflective of early-onset type 2 diabetes in Anishinew youth

Advisor: Dolinsky, Vernon Wayne

Co-Advisor: Doucette, Christine Anne

Zegallai, Hana Medhat A *

Major: Pharmacology & Therapeutics

Thesis: The impact of Tafazzin deficiency on the functional and immunological characteristics of B lymphocytes

Advisor: Hatch, Grant Michael

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Medicine (continued)

Xu, Yang Xin Zi *

Major: Physiology & Pathophysiology
Thesis: Investigating the role of prohibitin in the metabolism and immune function of macrophages
Advisor: Mishra, Suresh

Doctor of Philosophy: Nursing

Krishnan, Preetha

Major: Nursing
Thesis: Orchestrating comfort: getting everyone on the same page: long term care nurses' experiences with advance care planning
Advisor: Thompson, Genevieve Nesta Barbara
Co-Advisor: McClement, Susan Elaine

Master of Arts: Environment, Earth, & Resources

Djordjevic, Katarina (St. John's College)

Major: Geography
Thesis: Encountering settler colonialism in hydroelectric development at Southern Indian Lake
Advisor: Peyton, Jonathan

Master of Environment

Kiernicki, Cassandra Jocelyn

Major: Environment and Geography
Thesis: Investigating climate change impacts on Arctic Charr (*Salvelinus alpinus*) in Canada and the Circumpolar Region: environmental and species interactions
Advisor: Tallman, Ross Franklin
Co-Advisor: Baydack, Richard Kenith

Master of Natural Resources Management

Adegun, Ajarat Adedoyin

Major: Natural Resources Institute
Thesis: The relationship between higher rates of COVID-19 and infrastructure on First Nations Reserves in Manitoba
Advisor: Thompson, Shirley

Cadger Maclean, Chantal Jordan Marie

Major: Natural Resources Institute
Thesis: What is wild? Framing "wild" in the context of wildlife conservation in Canada
Advisor: Sinclair, Andrew John

* as at February 2023

DEGREES IN COURSE

Master of Natural Resources Management

Jowett, Murray Breckman

Major: Natural Resources Institute

Practicum: Value chain discovery of Canadian participatory plant breeders

Advisor: Davidson-Hunt, Iain Johnson

Master of Science: Environment, Earth, & Resources

De Souza Junior, Enoil *

Major: Environment and Geography

Thesis: The influence of Arctic sea ice extent on northern
South American precipitation

Advisor: Hanesiak, John Michael

Hunnie, Blake Elliott

Major: Environment and Geography

Thesis: The long-term chemical fate of crude oil released in the
Arctic during the Baffin Island Oil Spill (BIOS) project

Advisor: Stern, Gary Avery

Rodgers, Katelyn Darlene

Major: Environment and Geography

Thesis: The effects of climate change on nutrient loading and
river discharge

Advisor: McCullough, Gregory Keith

Co-Advisor: Papakyriakou, Timothy N

Co-Advisor: Barber, David George

Voss, Kelsey Marie *

Major: Environment and Geography

Thesis: Examining the asynchronous behaviour of the Upernavik
Isstrøm in northwest Greenland

Advisor: Crawford-Alley, Karen Elizabeth

Co-Advisor: Dahl-Jensen, Dorte

Yezhova, Yekaterina

Major: Environment and Geography

Thesis: Physical and biological controls on ocean acidification in
the Southampton Island region, Hudson Bay

Advisor: Papakyriakou, Timothy N

Kilmury, Aaron Austin *

Major: Geological Sciences

Thesis: Vertebrate faunal assemblages of the Late Cretaceous
Western Interior Seaway in Manitoba

Advisor: Brink, Kirstin Sara

* as at February 2023

DEGREES IN COURSE

Master of Science: Environment, Earth, & Resources (continued)

Morrow, Claire Sarah Patricia *

Major: Geological Sciences

Thesis: The sedimentology, geomorphology, and hydrology of extreme floods on the Assiniboine River, southwestern Manitoba

Advisor: Durkin, Paul Richard

Sharma, Aarti *

Major: Geological Sciences

Thesis: Two-station Rayleigh wave tomography of Canada

Advisor: Frederiksen, Andrew

Co-Advisor: Darbyshire, Fiona

Snyder, Adam Jeremy *

Major: Geological Sciences

Thesis: Modeling the jaw mechanics of Dimetrodon
(Synapsida: Sphenacodontidae)

Advisor: Brink, Kirstin Sara

Master of Dentistry

Bajwa, Sukeerat Kaur *

Major: Preventive Dental Science

Thesis: A randomized clinical trial of silver diamine fluoride to arrest early childhood caries in young children

Advisor: Schroth, Robert John

Master of Science: Dentistry

Azimian Zavareh, Parnia

Major: Oral Biology

Thesis: Characterization of fetal alcohol spectrum disorders (FASD) associated dental defects -insights from zebrafish (*Danio rerio*)

Advisor: Atukorallaya, Devi Sewvandini A

Silva, Praneeth Tiroshan

Major: Oral Biology

Thesis: Characterizing the effect of alcohol and wnt/ β -catenin interactions on melanocyte development: insights from zebrafish (*Danio rerio*)

Advisor: Atukorallaya, Devi Sewvandini A

* as at February 2023

DEGREES IN COURSE

Master of Science: Medicine

Ashiri, Mehrafarin

Major: Biochemistry and Medical Genetics

Thesis: Using an engineered human hexosaminidase as an enzyme replacement therapy to treat a mouse model of Tay-Sachs Disease

Advisor: Mark, Brian

Co-Advisor: Triggs-Raine, Barbara Lynne

Barker, Emily Nicole

Major: Biochemistry and Medical Genetics

Thesis: Development and characterization of GM2 gangliosidoses mouse models

Advisor: Triggs-Raine, Barbara Lynne

Lockman, Sandhini

(St. John's College)

Major: Biochemistry and Medical Genetics

Thesis: Investigating the transcriptional control of the MECP2 gene by using a newly developed cell line

Advisor: Rastegar, Mojgan

Wilke, MacKenzie Anne Paige *

Major: Biochemistry and Medical Genetics

Thesis: Using genomics to guide the development of strategies to predict and prevent cisplatin-induced ototoxicity

Advisor: Drogemoller, Britt Ingrid

Asadpour, Faraz *

Major: Community Health Sciences

Thesis: Examining access to and use of internet and risk of social isolation during the COVID-19 pandemic among both younger and older adults with intellectual and developmental disabilities in Manitoba

Advisor: Shooshtari, Shahin

Barrett, Nicole Kathleen *

(St. Paul's College)

Major: Community Health Sciences

Thesis: The effects of roots of empathy program on violent injury in youth

Advisor: Wall-Wieler, Elizabeth

Ewezesan, Roheema Olusola *

Major: Community Health Sciences

Thesis: Assessing disparities in socio-behavioral perinatal health risk indicators among immigrants in Manitoba

Advisor: Urquia, Marcelo Luis

* as at February 2023

DEGREES IN COURSE

Master of Science: Medicine (continued)

Lavallée, Sara Josée

Major: Community Health Sciences

Thesis: Learning from each other, together: exploring Red River Métis youth experiences in cultural activities through relationality

Advisor: Driedger, Michelle

Liu, Kun *

Major: Community Health Sciences

Thesis: Comparisons of different propensity score methods in a multilevel framework: implications for cluster-based program evaluation

Advisor: Jiang, Depeng

Millar, Kyle Adam *

Major: Community Health Sciences

Thesis: Towards a clinical definition of children with medical complexity: a Delphi process

Advisor: Garland, Allan Bruce

Perera, Essence Isabelle

Major: Community Health Sciences

Thesis: A longitudinal examination of suicidal behaviours among individuals with mental disorders in the Canadian Armed Forces

Advisor: Bolton, Shay-Lee Lynn

Co-Advisor: Afifi, Tracie

Rossum, Krista Frances *

Major: Community Health Sciences

Thesis: Development of an algorithm to predict appendicular lean mass (ALM) from regional spine and hip DXA scans

Advisor: Tangri, Navdeep

Co-Advisor: Bohm, Clara

Singh, Charanpal *

Major: Community Health Sciences

Thesis: Modeling childhood wheezing in small areas in Manitoba

Advisor: Torabi, Mahmoud

Arreza, Leanne Jovie Felicia Candado

Major: Human Anatomy & Cell Science

Thesis: Investigating a novel CTRP8-DLK1 interaction and its impact on glioma stemness

Advisor: Klonisch, Thomas

* as at February 2023

DEGREES IN COURSE

Master of Science: Medicine (continued)

Batson, Carleen *

Major: Human Anatomy & Cell Science

Thesis: Age and sex-related differences in cerebrovascular response
in traumatic brain injury (TBI)

Advisor: Zeiler, Frederick Adam

Ippolitov, Danyyl *

Major: Human Anatomy & Cell Science

Thesis: The mechanisms of pro-survival action of NRG1 in brain
metastatic HER2+ breast cancer cells

Advisor: Hombach-Klonisch, Sabine

Co-Advisor: Klonisch, Thomas

Azeez, Rilwan

Major: Immunology

Thesis: Predictors of SARS-CoV-2 anti-spike IgG antibody levels
following two COVID-19 vaccine doses among children and
adults in the CHILD COVID-19 Add-On Study

Advisor: Azad, Meghan

Salako, Enitan Shukurat

Major: Immunology

Thesis: The role of alkylidihydroxyacetone phosphate synthase (ADS)
on host immune response and virulence of leishmania major

Advisor: Uzonna, Jude Ezech

Pratt, Elena Molly *

Major: Medical Microbiology and Infectious Diseases

Thesis: The effect of sample processing methodology on observed
metagenomic and metatranscriptomic microbiome profiles from
healthy human stool

Advisor: Van Domselaar, Gary Hugh

Tan, Derek Tin *

Major: Medical Microbiology and Infectious Diseases

Thesis: A *Clostridioides difficile* surveillance study of Canadian
retail meat samples from 2016-2018: a possible source
of human clinical infections?

Advisor: Golding, George Ryan

Evangelista de Lima Terceiro, Lucas

Major: Pathology

Thesis: Delineating the role of prolactin-inducible protein (Pip)
in breast cancer lung metastasis

Advisor: Myal, Yvonne

Co-Advisor: Hombach-Klonisch, Sabine

* as at February 2023

DEGREES IN COURSE

Master of Science: Medicine (continued)

Myhalatyuk, Olha *

Major: Pharmacology & Therapeutics

Thesis: Role of TRPM2 channels and ADPR signalling in mediating the synaptotoxic effects of A β oligomers

Advisor: Kauppinen, Tiina Matleena

Co-Advisor: Jackson, Michael Frederick

Abual'anaz, Beshar Mahmoud *

Major: Physiology & Pathophysiology

Thesis: Sex-dependent survivorship in periostin knockout mice post-myocardial infarction

Advisor: Dixon, Ian Michael Charles

Arya, Vibhuti

Major: Physiology & Pathophysiology

Thesis: CANFLAX: Can flaxseed "milk" prevent broken hearts in women with breast cancer?

Advisor: Jassal, Davinder Singh

Co-Advisor: Pitz, Marshall Wilfred

Sultana, Shakila

Major: Physiology & Pathophysiology

Thesis: The involvement of thioredoxin-1 in neuronal laminopathy in neurodegeneration

Advisor: Eftekharpour, Eftekhari

Telles-Langdon, Sara Michèle

Major: Physiology & Pathophysiology

Thesis: Is flaxseed equivalent and/or synergistic with ACE inhibition in the treatment of chemotherapy induced cardiotoxicity?

Advisor: Jassal, Davinder Singh

Co-Advisor: Singal, Pawan K

Master of Nursing

Dada, Damilare Ayodele *

Major: Nursing

Kraut, Jane Ellen *

Major: Nursing

Thesis: Exploring school administrators' perceptions of death education in public schools

Advisor: Thompson, Genevieve Nesta Barbara

Co-Advisor: Penner, Jamie LaFaye

* as at February 2023

DEGREES IN COURSE

Master of Nursing (continued)

Sidloski, Tannis Gaye *

Major: Nursing

Thesis: The experiences of critically ill patients' family members in adult intensive care unit multidisciplinary rounds

Advisor: Edwards, Marie Patricia

Walton, Laura Louise *

Major: Nursing

Thesis: Exploration of the patient perception of their role in pain assessment and management

Advisor: McMillan, Diana Elizabeth

Master of Science: Pharmacy

Ens, Karin Joanna Loepp

Major: Pharmacy

Thesis: Evaluation of a patient-centred, multidisciplinary opioid tapering program for individuals with chronic non-cancer pain on long-term opioid therapy: a preliminary report

Advisor: Turcotte, Dana Anne

Szymanski, Paul Matthew *

Major: Pharmacy

Thesis: A one-pot, microwave-assisted synthesis of aryl ureas and carbamates using HATU and HOSA

Advisor: Tranmer, Geoffrey Kenneth Gordon

Master of Occupational Therapy

He, Elizabeth *

Major: Occupational Therapy 2 Year

Richardson, Courtney Amber *

Major: Occupational Therapy 2 Year

Saunders, Meagan Anne *

Major: Occupational Therapy 2 Year

Master of Science: Rehabilitation Sciences

Allison, Teresa Jane *

Major: Rehabilitation Sciences

Thesis: Exploration of the development, implementation, and value of digital storytelling for older adult clients of a community-based organization: a case study

Advisor: Ripat, Jacqueline

* as at February 2023

DEGREES IN COURSE

Master of Science: Rehabilitation Sciences (continued)

DEGREES IN COURSE

Doctor of Philosophy: Agricultural & Food Sciences

Hui, Qianru

Major: Animal Science

Thesis: Improving bone health and eggshell quality through maintaining a desired calcium homeostasis in laying hens

Advisor: Yang, Chengbo

Koo, Bonjin *

Major: Animal Science

Thesis: Nutritional strategies to promote the health of weaned piglets: an evaluation of dietary supplementation with functional amino acids

Advisor: Nyachoti, Charles Martin

Wijerathne, Kadukara Herath Mudiyansele Charith Udara Bandara

Major: Animal Science

Thesis: Regulation of folate reabsorption and oxidative stress in acute kidney injury

Advisor: O, Karmin

La, Amy *

Major: Biosystems Engineering

Thesis: Modelling of infectious animal viral disease transmission by aerosols

Advisor: Zhang, Qiang

Co-Advisor: Cicek, Nazim

Colwell, Megan Jane *

Major: Entomology

Thesis: A study on novel transmission routes of honey bee (*Apis mellifera* L.) viruses with a focus on the epidemiological role of wax comb

Advisor: Currie, Robert William

Co-Advisor: Pernal, Stephen Francis

Asen, Nancy Dookenger

Major: Food Science

Thesis: Structural and functional characterization of yellow field pea (*Pisum sativum*) soluble protein aggregates and cholinesterase-inhibitory peptides

Advisor: Aluko, Rotimi Emmanuel

Drawbridge, Pamela Christine

Major: Food Science

Thesis: Bioaccessibility of ferulic acid in barley

Advisor: Beta, Trust

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Agricultural & Food Sciences (continued)

Fahmi, Ronak *

Major: Human Nutritional Sciences

Thesis: Sensory and chemical characteristics, glycaemic response, and nutritional studies of white pan bread fortified with split yellow pea (*Pisum sativum* L.) flour

Advisor: Aliani, Michel

Lin, Yang *

Major: Plant Science

Thesis: Mapping of *Fusarium* head blight resistance in two winter wheat populations and gene expression analysis of putative genes related to the host-pathogen interaction

Advisor: Brule-Babel, Anita Leona

Liton, M M Uzzal Ahmed *

Major: Plant Science

Thesis: Genetic and transcriptomic analysis for pre-harvest sprouting resistance in red spring wheat

Advisor: Ayele, Belay Teshome

Mangin, Amy Rose *

Major: Plant Science

Thesis: Agronomic practices to minimize lodging risk while maximizing yield and protein potential of spring wheat in the eastern Canadian Prairies

Advisor: Lawley, Yvonne Elizabeth

Co-Advisor: Brule-Babel, Anita Leona

Fatema, Marufa

Major: Soil Science

Thesis: Investigation of pesticides in rivers and an on-farm mitigation strategy for reducing point-source pollution

Advisor: Farenhorst, Annemieke

Goharrokhi, Masoud *

Major: Soil Science

Thesis: Sedimentary processes in large, regulated river systems in the Canadian subarctic

Advisor: Lobb, David A

DEGREES IN COURSE

Doctor of Philosophy: Science

Alrayes, Linda Naim Hasan *

Major: Biological Sciences

Thesis: The role of RAD16 and elongin A/C homologs in Arabidopsis UV tolerance and growth

Advisor: Stout, Jason M

Bugg, William Smithson *

Major: Biological Sciences

Thesis: Population-specific transcriptional plasticity and thermal thresholds in developing lake sturgeon, *Acipenser fulvescens*

Advisor: Jeffries, Kenneth Michael

Co Advisor: Anderson, W Gary

Hoogenboom, Janine Lisa *

Major: Biological Sciences

Thesis: The role of the intestinal spiral valve on whole-body nitrogen homeostasis in marine elasmobranchs

Advisor: Anderson, W Gary

Walker, Philip

Major: Biological Sciences

Thesis: Investigation of the Brassica napus - Sclerotinia sclerotiorum pathosystem and development of RNA interference-based technologies to control pathogenicity

Advisor: Belmonte, Mark Findlay

Co Advisor: Whyard, Steven

Warret Rodrigues Junior, Chloe *

Major: Biological Sciences

Thesis: Use of space and resources by red foxes and Arctic foxes in a coastal tundra transitional ecosystem

Advisor: Roth, James David

Yasmin, Tamanna

Major: Biological Sciences

Thesis: Analysis of sea lamprey gonadal transcriptomes to investigate the genetic basis of sex determination, differentiation, and sexual maturation

Advisor: Docker, Margaret Felice

Co Advisor: Good, Sara Victoria

Lozada, Issiah Byen Mandia *

Major: Chemistry

Thesis: Live long and phosphor: extending absorptive cross-sections and excited-state lifetimes through benzannulation

Advisor: Herbert, David Eric

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Science (continued)

Mittal, Navriti

Major: Chemistry

Thesis: Functional characterization of lichen fungal (*Cladonia uncialis*) genes and exploration of its secondary metabolome

Advisor: Sorensen, John

Vrublevskiy, Dmitry Stanislavovich

Major: Chemistry

Thesis: Order-disorder competition in the $\text{Sc}_2\text{VO}_5+\text{d}$ system. Review and experimental pursuit of $\text{A}_3+\text{2VO}_5$ and $\text{Sc}_2\text{VO}_5+\text{d}$ -inspired solid phases

Advisor: Bieringer, Mario

Alallah, Fouad Shoie *

Major: Computer Science

Thesis: Situated spatio-temporal visual analytics

Advisor: Irani, Pourang

Co Advisor: Mohammed, Noman

Dubois, Patrick Marcel Joseph *

Major: Computer Science

Thesis: Gender inclusivity in online question and answer communities: investigating community member practices and perceptions to work towards equitable interfaces

Advisor: Bunt, Andrea

Liu, Ying Ying *

Major: Computer Science

Thesis: Multi-objective optimization on dynamic complex networks

Advisor: Thulasiraman, Parimala

Liang, Yungang *

Major: Mathematics

Thesis: The tensor rank problem over the quaternions

Advisor: Zhang, Yang

Hogan, Andrew Michael *

Major: Microbiology

Thesis: Chemogenomic investigation of *Burkholderia cenocepacia* K56-2 reveals the targets of antibiotics and potentiators

Advisor: Cardona, Silvia

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Science (continued)

Kuzyk, Steven Brady *

Major: Microbiology

Thesis: The ecology, physiology, and diversity of aerobic anoxygenic phototrophs in Lake Winnipeg, Canada

Advisor: Yurkov, Vladimir

Anholm, Melissa Janette *

Major: Physics and Astronomy

Thesis: A precision search for exotic scalar and tensor couplings in the beta decay of spin-polarized ^{37}K

Advisor: Gwinner, Gerald

Co Advisor: Behr, John A

Franzmann, Erica Leigh *

Major: Physics and Astronomy

Thesis: Tensor virial analysis and magnetic field perturbations of magnetized molecular cloud cores

Advisor: Fiege, Jason

Hansen-Romu, Sean Tyler Christian

Major: Physics and Astronomy

Thesis: Modeling He-II cryostat performance and characterization of spin manipulation components for a neutron electric dipole moment experiment at TRIUMF

Advisor: Jamieson, Blair Alex

Kootte, Brian Aaron

Major: Physics and Astronomy

Thesis: Staking out the Tm Proton drip-line with mass spectrometry and using electrons to sympathetically cool ions inside a penning trap

Advisor: Gwinner, Gerald

Ray, Dwaipayan *

Major: Physics and Astronomy

Thesis: Mass measurements of neutron-rich nuclides for the astrophysical r process using the Canadian Penning trap mass spectrometer

Advisor: Sharma, Kumar Satish

Co Advisor: Clark, Jason Allan

Singha, Mainak

Major: Physics and Astronomy

Thesis: Supermassive black hole driven outflows in the nearby universe

Advisor: O'Dea, Christopher

Co Advisor: Baum, Stefi

* as at February 2023

DEGREES IN COURSE

Doctor of Philosophy: Science (continued)

Doshi, Ankit Ranjit *

Major: Statistics

Thesis: Simulation and modeling of networks targeting graph attributes and structures

Advisor: Muthukumarana, Palavinnage Saman

Co Advisor: Johnson, Bradford Cecil

Hoque, Md. Erfanul *

Major: Statistics

Thesis: Accounting for heterogeneity in the dependence mechanism of longitudinal data

Advisor: Acar, Elif Fidan

Co Advisor: Torabi, Mahmoud

Jin, Zhiyong

Major: Statistics

Thesis: First passage time for a class of one-dimensional jump-diffusion processes and flexible boundaries

Advisor: Wang, Liqun

Munaweera Arachchilage, Inesh Prabuddha

Major: Statistics

Thesis: Bayesian modeling and simulation methods for fish movements

Advisor: Muthukumarana, Palavinnage Saman

Co Advisor: Gillis, Darren Michael

Master of Science

Eckhardt, Maria *

Major: Biological Sciences

Thesis: Characterization of two isoforms of a novel ammonia transporter, LpHIAT1a and LpHIAT1 β , in the American horseshoe crab *Limulus polyphemus*

Advisor: Weihrauch, Dirk

Edwards, Tyler *

Major: Biological Sciences

Thesis: Sensing the environment: using olfaction to understand dietary preferences in lake sturgeon *Acipenser fulvescens*

Advisor: Anderson, W Gary

Co Advisor: Fry, William Mark

* as at February 2023

DEGREES IN COURSE

Master of Science (continued)

McDonald, Tess Marie *

Major: Biological Sciences

Thesis: Revegetation of disturbed lands: establishing native plant communities on borrow pits in northern Manitoba

Advisor: Renault, Sylvie

Co Advisor: Markham, John

Pontbriand, Tommy *

Major: Biological Sciences

Thesis: Individuals matter: investigating individual-level foraging variability in Eastern Canada - West Greenland bowhead whales (*Balaena mysticetus*)

Advisor: Ferguson, Steven H

Co Advisor: Davoren, Gail

Smith, Lakesha Helen Natsuki *

Major: Biological Sciences

Thesis: The development and flexibility of timing to environmental variability in a migratory songbird

Advisor: Fraser, Kevin Charles

Stratton, Desiree Angela Lynn *

Major: Biological Sciences

Thesis: The relationship between the algal toxin microcystin and the chemical, physical and biological parameters in Lake

Winnipeg

Advisor: Goldsborough, L Gordon

Taylor, Alaina Alyce

Major: Biological Sciences

Thesis: Calcified structures: the use of metal signatures to understand life history and estimate age in Lake Sturgeon (*Acipenser fulvescens*)

Advisor: Anderson, W Gary

Vandervelde, Carolyn Anne *

Major: Biological Sciences

Thesis: Population structure of bigmouth buffalo (*Ictiobus cyprinellus*) across Canada and the United States

Advisor: Jeffries, Kenneth Michael

Weisgerber, Kaitlynn Amanda

Major: Biological Sciences

Thesis: Investigating polyploidy and associated hematological changes in wild and hatchery Lake Sturgeon, *Acipenser fulvescens*

Advisor: Anderson, W Gary

* as at February 2023

DEGREES IN COURSE

Master of Science (continued)

Ajayi, Simisola Abeke *

Major: Chemistry

Thesis: Investigation of the mechanism of protein denaturation by urea through a judicious selection of model systems

Advisor: Khajehpour, Mazdak

Gandhi, Karan Sudhir *

Major: Chemistry

Thesis: Exploring the synthesis and biological properties of Tobramycin-Deferiprone hybrids against *Pseudomonas aeruginosa*

Advisor: Schweizer, Frank

Gregory, Carolyn *

Major: Chemistry

Thesis: Study of the internal dynamics of molecules of astrophysical interest by rotational spectroscopy

Advisor: Van Wijngaarden, Jennifer Anne

Lubna, Nikhat

Major: Chemistry

Thesis: Functional characterization of oligoadenylate synthetase (OAS) by dual polymerase-endoribonuclease assay

Advisor: McKenna, Sean Andrew

Weerasundarage, Surani Sithara *

Major: Chemistry

Thesis: Improving vitrification of sulfur in P-doped borosilicate glasses: a solid-state nuclear magnetic resonance spectroscopy study

Advisor: Kroeker, Scott

Abdullah, Khaled Bin

Major: Computer Science

Baghestani, Afsane

Major: Computer Science

Thesis: Older adults' collaborative learning dynamics when exploring feature-rich software

Advisor: Bunt, Andrea

Co Advisor: Latulipe, Celine

* as at February 2023

DEGREES IN COURSE

Master of Science (continued)

Chanda, Shekhor *

Major: Computer Science

Thesis: Domain adaptation for image classification and crowd counting

Advisor: Wang, Yang

Dantu, Naga Chaitanya Reddy *

Major: Computer Science

Daryl Fung Lerh Xing *

Major: Computer Science

Thesis: Deep learning for microbiome-based disease prediction and rheumatoid arthritis hand joint detection

Advisor: Hu, Pingzhao

Co Advisor: Leung, Carson Kai-Sang

Dong, Ximing *

Major: Computer Science

Thesis: Distilling knowledge through student-teacher model and BERT for sentiment analysis

Advisor: Thulasiraman, Parimala

Gupta, Eshaan

Major: Computer Science

Hussain, Yasir

Major: Computer Science

Islam, Tanzir Ul

Major: Computer Science

Thesis: Privacy-preserving federated learning model for healthcare data

Advisor: Mohammed, Noman

Japjeet Singh *

Major: Computer Science

Thesis: Data-driven risk forecasting and algorithmic trading models for cryptocurrencies

Advisor: Thulasiram, Ruppa K

Co Advisor: Thavaneswaran, Aerambamoorthy

Kaur, Guneet *

Major: Computer Science

* as at February 2023

DEGREES IN COURSE

Master of Science (continued)

Li, Borui *

Major: Computer Science

Thesis: Understanding live chat streams and detecting spam messages
with a case study on Vtubers

Advisor: Leung, Carson Kai-Sang

Mai, Jiaxing *

Major: Computer Science

Thesis: Scalable high-utility pattern mining from data streams

Advisor: Leung, Carson Kai-Sang

Malik, Nishant

Major: Computer Science

Neloy, Asif Ahmed *

Major: Computer Science

Thesis: Disentangled conditional variational autoencoder for
unsupervised anomaly detection

Advisor: Akcora, Cuneyt Gurcan

Co Advisor: Turgeon, Maxime

Seethanaboyina, Teresa

Major: Computer Science

Shah, Kushal Manishbhai *

Major: Computer Science

Shah, Ridham Rupeshbhai *

Major: Computer Science

Sharma, Neha *

Major: Computer Science

Singh, Amandeep *

Major: Computer Science

Singh, Gagandeep *

Major: Computer Science

Wodi, Bryan Henry *

(St. John's College)

Major: Computer Science

Thesis: A hybrid database solution to support transportation
analytics with case studies on improving emergency

medical service response times

Advisor: Leung, Carson Kai-Sang

* as at February 2023

DEGREES IN COURSE

Master of Science (continued)

Kim, Gun *

Major: Mathematics

Thesis: Isometric, unitary and invertible weighted composition operators on spaces of holomorphic functions $H^2_D(\beta)$

Advisor: Zorboska, Nina

Kulathunga Mudiyansele, Dulari Harshika Kulathunga *

Major: Mathematics

Thesis: Tensor ranks over the quaternions

Advisor: Guo, Benqi

Co Advisor: Zhang, Yang

Stephens, Alexander Michael *

Major: Mathematics

Thesis: Absolute extreme points of matrix convex sets: existence and spanning

Advisor: Clouatre, Raphael

Fajardo, Janice Ann Campat *

Major: Microbiology

Thesis: Relationships among *Fusarium graminearum* infection, phenolic acid content, and the presence of a competing fungus in malting barley

Advisor: Bakker, Matthew

Plouffe, Jocelyn Nicole

Major: Microbiology

Thesis: Investigating thermophilic methanotrophs in a Manitoba landfill biowindow

Advisor: Sparling, Richard Robert Michael

Wiebe, Katie Grace *

Major: Microbiology

Thesis: Investigation into efficient bacteriophage production for use against enterotoxigenic *Escherichia coli*

Advisor: Theriault, Steven

Co Advisor: Court, Deborah Ann

Balanduk, Christina Louise *

Major: Physics and Astronomy

Thesis: Optimization of a time resolved magneto optical Kerr effect magnetometer over nanosecond time-scales with femtosecond resolution

Advisor: Burgess, Jacob

* as at February 2023

DEGREES IN COURSE

Master of Science (continued)

McRae, Craig *

Major: Physics and Astronomy

Thesis: Global analysis of the proton elastic form factors in the space-like region

Advisor: Blunden, Peter Gwithian

Niloy, Nafis Rafat

Major: Physics and Astronomy

Thesis: Detector development for the MOLLER experiment

Advisor: Gericke, Michael Thomas

Zheng, Xiang

(University College)

Major: Statistics

Thesis: Optimal designs for matching adjusted indirect comparison (MAIC)

Advisor: Mandal, Saumendranath

* as at February 2023
