

# Pre-arrival Checklist

## New Faculty Hire

Congratulations, by now you have signed your Letter of Offer and are on your way to being a part of the UM Bison Herd! The University of Manitoba is committed to nurturing your career development and part of that process is facilitating a smooth transition as you prepare to take on a new appointment as a faculty member.

### Traditional Territories Acknowledgement

The University of Manitoba campuses are located on original lands of Anishinaabeg, Ininiwak, Anisininewuk, Dakota Oyate and Dene, and on the National Homeland of the Red River Métis.

We respect the Treaties that were made on these territories, we acknowledge the harms and mistakes of the past, and we dedicate ourselves to move forward in partnership with Indigenous communities in a spirit of Reconciliation and collaboration.

### Our plan to lead change together

Grounded in UM's [mission, vision and core values](#), and [in the spirit of Reconciliation and collaboration](#), we will respectfully lead change and shape a brighter future for all.

This resource will take you through a detailed step-by-step list of items to complete before you arrive to start your new role on campus. To ensure a smooth transition, it is recommended that you request assistance from your unit point person or administrator if you have any questions regarding what is mentioned on this checklist.

- Claim your UMNNetID by visiting the [Congratulations and welcome!](#) page. If you already have an existing staff or student account, you will be notified and asked to contact the [IST Service Desk](#) for assistance. If you are new to the UM, please follow the prompts and once you have done so, you will gain access to the following:
  - [Multi-factor Authentication security](#) – MFA is mandatory at the UM for all faculty, staff, and students. It adds an extra layer of security to our university accounts to protect you, your data, and university systems from unauthorized access and phishing attacks. Verifying your identity using a second factor such as your phone or mobile device prevents others from accessing your accounts, even if they know your password.

- [M365 email](#) and the [Office Productivity Suite Application](#) – By activating your UMNNetID, you will gain access to your Outlook email and the M365 Office Suite.
  - [UM Learn](#) – Is the University of Manitoba’s learning management system (LMS) and is used to support the effective delivery of face-to-face, online and blended courses
  - [Libraries](#) - The Libraries offers a wide range of support for research and learning for students and faculty, including web-based resources, supplemental instruction from subject librarians, workshops, and reference services. The Libraries provides several services for the UM research community to support the creation of good data throughout the research data lifecycle.
  - [UM Intranet](#) - Serves as your portal to conveniently and quickly access faculty and staff resources and materials needed for your career, life and work at UM. Accessible only to those with a @umanitoba.ca email address (faculty, staff, nil appointments and affiliated partner employees), UM Intranet is hosted on SharePoint Online (SPO), a Microsoft 365 application commonly used for intranet sites.
  - [Employee Self-Service \(ESS\)/VIP Portal](#) – The Employee Self-Service (ESS) system can be accessed through the VIP portal. In the ESS system, you can update your preferred name, address, phone number or emergency contact.
  - [VPN Remote](#) - A virtual private network (VPN) is used to allow offsite users to access secured/restricted resources. The VPN utilizes public resources such as the internet to provide remote users with secure access to the University of Manitoba's network. It allows the authentication and encryption of data between the remote user's computer and the campus network.
  - [UofM Secure](#) - Is UM’s wireless network that’s fast, encrypted, and available everywhere on all campuses to anyone with a UM email address. All you have to do is enter your UM email address and password the first time you connect. Your device will remember your connection the next time you are on campus. Students, staff and faculty should connect to **uofm-secure** while on campus.
- Complete the [Workplace Diversity Self-Declaration](#) form – There are six questions in total and for optimal data, all employees should complete the form and provide this information. Information collected from the survey is not limited to particular groups or individuals. Your response is voluntary, and your personal information remains confidential. Individual information will not be shared, and data will be aggregated. More information can be found on the [Equity, Diversity and Inclusion](#) section of UM Intranet.
- Complete the [Personal Information Form](#) and submit to your hiring unit (not Human Resources), if one of the following applies:
