

COVID Pass Grade Communication

Fall 2020

We are aware that applicants have many questions regarding the admissions process and how it will be affected by COVID-19 situation. Every institution may be dealing with the COVID-19 situation differently as each institution will have their own processes and policies when it comes to assigning grades this year. As an applicant to the University of Manitoba, it is very important to understand the potential implications of receiving a “pass grade” on current and future applications.

The University of Manitoba will require graded coursework to fulfill all admission requirements as outlined in the Applicant Information Bulletin. Pass grades will not be considered for meeting any of these requirements. Should your university, University of Manitoba or another institution, retain a grade yet exclude it from your institutional GPA calculation, that grade will be used to meet admission requirements and the GPA calculation for your application at the University of Manitoba.

As such we wanted to note any potential implications for your application to the following programs:

PROGRAM	PASS GRADE IMPACT ON ADMISSIONS
Agriculture	<ul style="list-style-type: none"> You must have 24 graded credit hours. Pass grades will not be included in the total. The AGPA will be calculated on graded courses and using the chart for dropping courses from the calculation in the Applicant Information Bulletin.
