WHAT IS A WORKSHOP?
During the Covid-19 pandemic, to help you get the most help possible from our workshops and groups and to help you feel connected and part of a community (with your fellow students and our counsellors), we require all students who participate in our workshops and groups to have their video turned on. Those students who turn off their video will be removed from the virtual room.

Our workshops are free and available only to University of Manitoba students. Contact us at (204) 474-8592 for further details and to register.

VARIous DAYS
STRESS MANAGEMENT (2:30 -4:00 PM):
Who this group is for: This workshop is appropriate for any students who are interested in learning about research supported strategies for managing stress.
What you’ll learn: To be alive means you will experience stress at times. This cannot be avoided. As well, there will be times, because life can present many challenges to us, when your coping resources for managing stress are exceeded and you feel you’re unable to cope or manage. This is common for most people and also for university students because university studies is challenging and many things can stress students (e.g. exams, presentations, competition, finances, relationships, etc.).
The SCC is offering a stress management workshop to help you learn strategies to manage stress and learn how to get yourself in a relaxed muscle body. Enhancing your ability to manage stress will help you academically and in all areas of your life. During this workshop, you will learn about and practice a variety of strategies but you will not be asked to share information about your personal experiences.
