

2012 - 2013 Program Requirements

These sheets will outline the Admission Requirements and High School Prerequisites for program options at the University of Manitoba.

Direct Entry - Students coming to the University of Manitoba directly from high school (or equivalent) or who have completed less than one year of university studies, will apply to a direct entry program option. For most students, this means entering into the University 1 program. Some direct entry program options are only open to students who have not completed **any** university or college study.

Advanced Entry – Students who wish to enter into an advanced entry program option must complete a designated set of required courses, normally beginning in University 1, prior to application. First year courses for advanced entry program options are made available to students within University 1. Specific admission requirements and deadlines for each program are available at the University of Manitoba admission website, umanitoba.ca/admissions.

Direct Entry Program Options Admission Requirements

Applicants must complete the following courses with the appropriate marks to be considered for their chosen direct entry program option. Students may apply prior to completing the required courses. Many programs will offer two direct entry routes, one option through University 1 and another option that is specific to that faculty or school.

University 1

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. Completion of ONE of the following sets (A, B or C) of requirements:

Set A:

- i. A minimum average of 70% over three Grade 12 university preparatory courses.
- ii. A minimum final grade of 60% in Grade 12 university preparatory English.

Set B: (Limited Admission)

- i. A minimum average of 63% to 69.9% over three Grade 12 university preparatory courses.
- ii. A minimum final grade of 60% in Grade 12 university preparatory English.

Set C: (Limited Admission)

- i. A minimum average of 70% over three Grade 12 university preparatory classes, but lacking the Grade 12 university preparatory English (either less than 60% or no credit at all).

Note: Admission under Set B or C will be considered a limited admission to University 1; some registration restrictions and performance standards will apply, and additional academic supports and services will be provided.

Faculty of Agricultural and Food Sciences*

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - English 12
 - Principles of Mathematics 12 or Applications of Math 12
 - Chemistry 12, Physics 12, Biology 12, or Computer Science 12

School of Agriculture (2 year diploma program)

1. Completion of Grade 12 and high school graduation are recommended.
2. Grade 12 courses in English, Math, and Science are required.
3. Students without a suitable high school standing may be admitted upon the recommendation of a selection committee. An interview may be required.

School of Art (Studio Degree Program)

1. Candidates must meet the same admission standards as University 1 applicants.
2. A portfolio is required.
3. Grade 12 Art is recommended.

School of Art (Diploma Program)

1. Completion of Grade 12 and high school graduation are recommended.
2. A portfolio is required.
3. Grade 12 Art is recommended.

UNIVERSITY
OF MANITOBA

Direct Entry Program Options Admission Requirements continued...

Asper School of Business*¹

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - English 12
 - Principles of Math 12 (recommended) or Applications of Math 12
 - A third university preparatory course

School of Dental Hygiene*¹

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - English 12
 - Two of Mathematics 12 (either Principles of Math 12, recommended, or Applications of Math 12), Biology 12, or Chemistry 12

Faculty of Engineering

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - Principles of Math 12
 - Chemistry 12
 - Physics 12

Faculty of Human Ecology*

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - English 12
 - Chemistry 12, Biology 12, or a Mathematics 12
 - A third university preparatory course

Faculty of Kinesiology and Recreation Management*¹ (Athletic Therapy requires applicants to have completed university studies)

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - English 12
 - A grade 12 math course
 - Biology 12 (recommended), Chemistry 12, Physics 12, or a Social Studies 12 (History 12 or Geography 12)

Marcel A. Desautels Faculty of Music

1. Candidates must meet the same admission standards as University 1 applicants.
2. An audition and a theory assessment are required.
3. Recommended level of musicianship (Toronto Conservatory or Conservatory Canada): Piano/Strings/Organ: 8; Voice/Winds: 7.
4. Grade 12 level music and a second language course are recommended.

Faculty of Science*

1. High school graduation, with four full credits in Grade 12 university preparatory courses.
2. A minimum 85% average over the following, with no less than 60% in each course:
 - English 12
 - Principles of Math 12 (recommended) or Applications of Math 12
 - Biology 12, Chemistry 12, Computer Science 12, or Physics 12

General Studies (Extended Education)

1. Candidates must meet the same admission standards as Set A University 1 applicants.

Note: High school students or mature status students who are planning to complete a degree at the University of Manitoba should seek admission to University 1.

* Applicants who have completed any university or college courses after high school graduation must meet the qualifications for Advanced Entry Program Options.

¹ In cases where eligible applicants outnumber the available spaces, applicants will require higher averages than stipulated to be successful in the admissions competition.

Advanced Early Admission

Students may apply for advanced early consideration to University 1, Agricultural & Food Sciences, Business, Engineering, Human Ecology, Music and Science based on their Manitoba Grade 11 or provincial equivalent marks. Qualifying students will receive a conditional acceptance, **but they must still meet the direct entry program requirements by the end of their Grade 12 year.** Students who do not qualify for conditional acceptance and submit their marks by the required deadline will automatically be considered for admission based on their Grade 12 marks. More details on how to apply for Advanced Early Admission and other admission deadlines are available on the Admissions website, umanitoba.ca/admissions.

High School Subject Prerequisites

Many programs will require or recommend specific high school courses over and above their admission requirements. These high school prerequisites (HSP) are not always required to enter the program, but they must be completed to enrol in certain university courses within it. If a student does not have a particular prerequisite when they enter the program, they may complete an equivalent upgrading course at university that will satisfy the prerequisite requirement. Please visit our website and consult Faculty Applicant Information Bulletin for more information.

Legend:

- Required. ○ Courses may be required depending on university course selection.
- ‡ Applications accepted from international students, but priority given to Canadian Citizens or Permanent Residents.
- * Resident Priority, no international students admitted but open to all Canadian Citizens or Permanent Residents.
- ¹ Students may be admitted without having completed these high school courses, however, students will be required to fulfill prerequisite requirements during the program.
- ² Minimum 60%.
- ³ Applications of Math 12 (min. 70%) or Principles of Math 12 (min. 60%).
